

# Introducing The Redeemer App

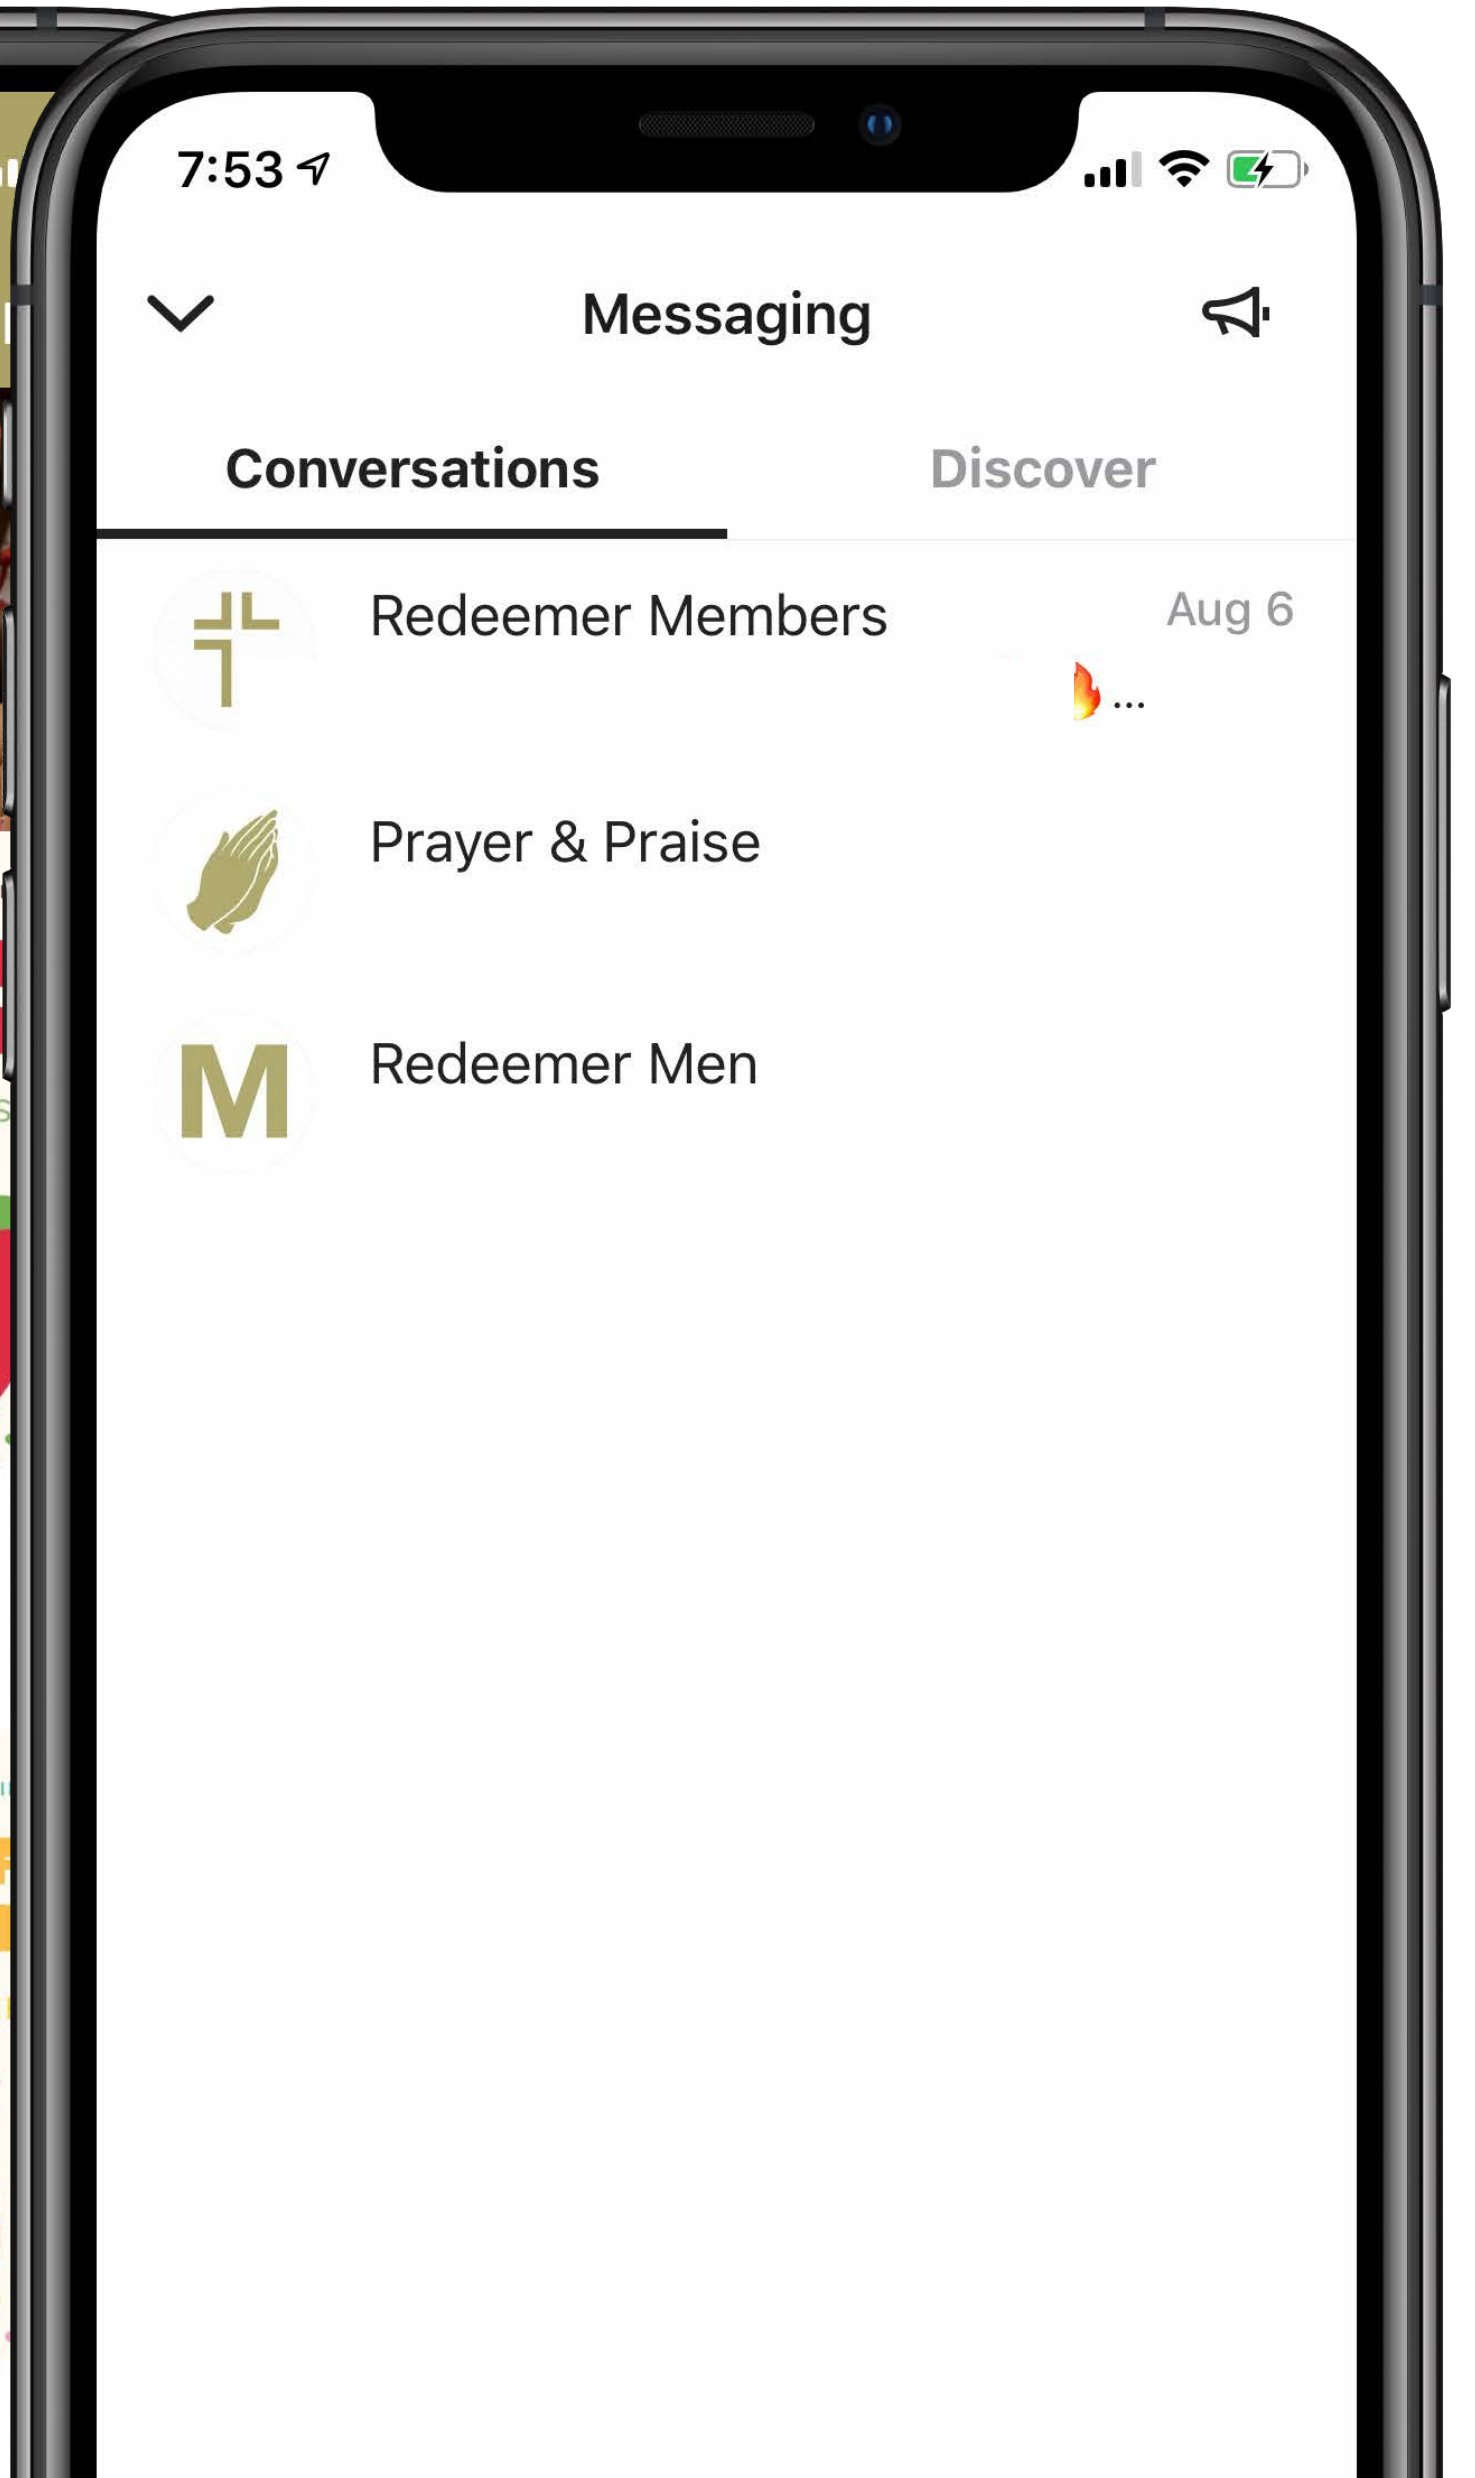

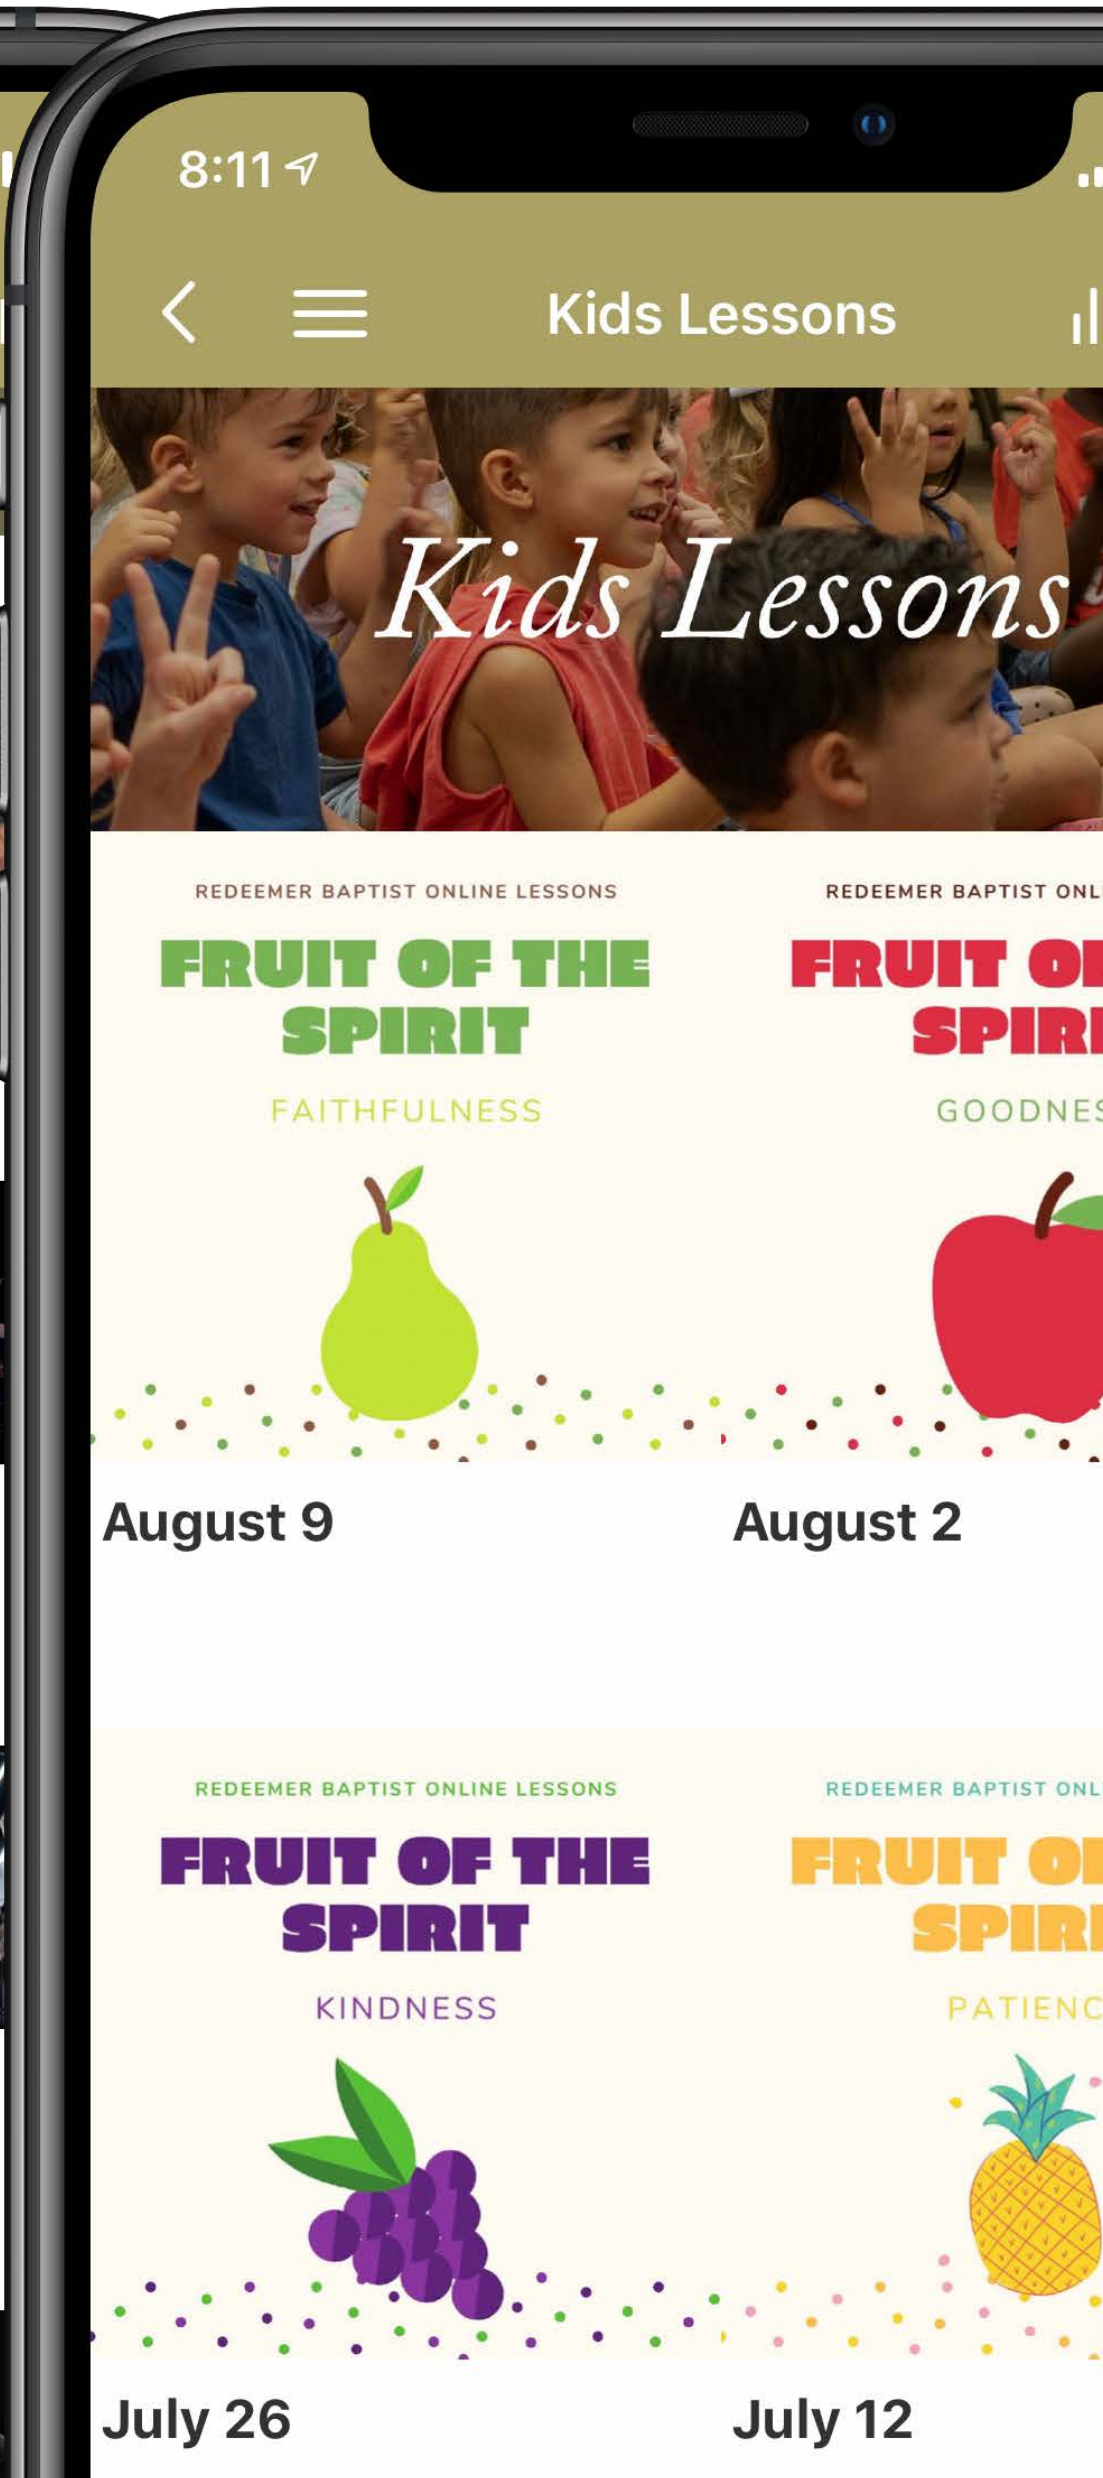

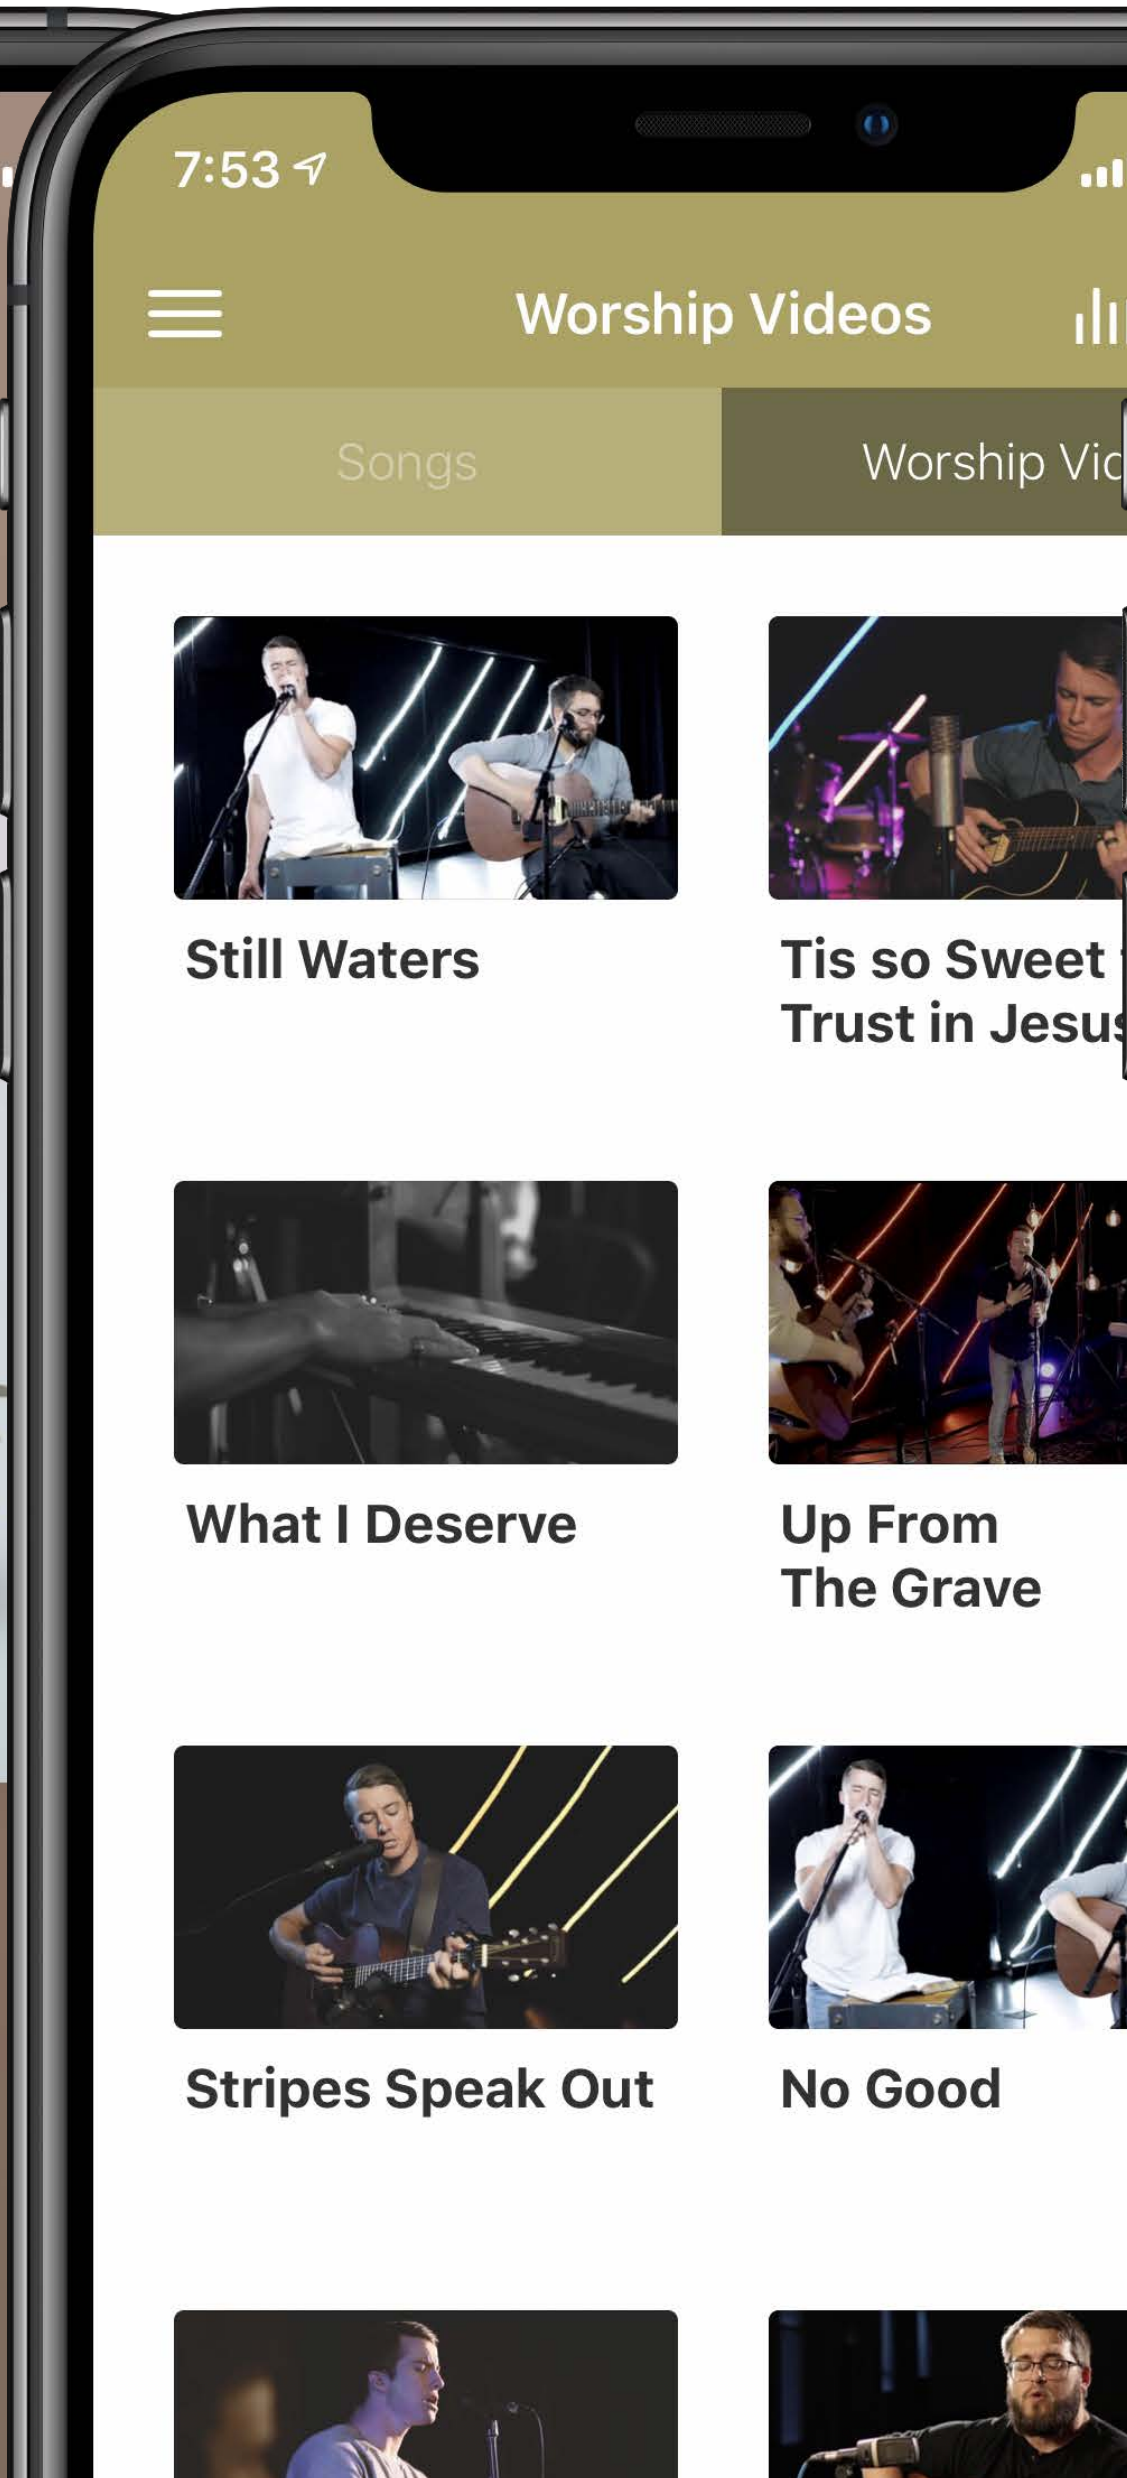

# Sermons

# Music

# Resources

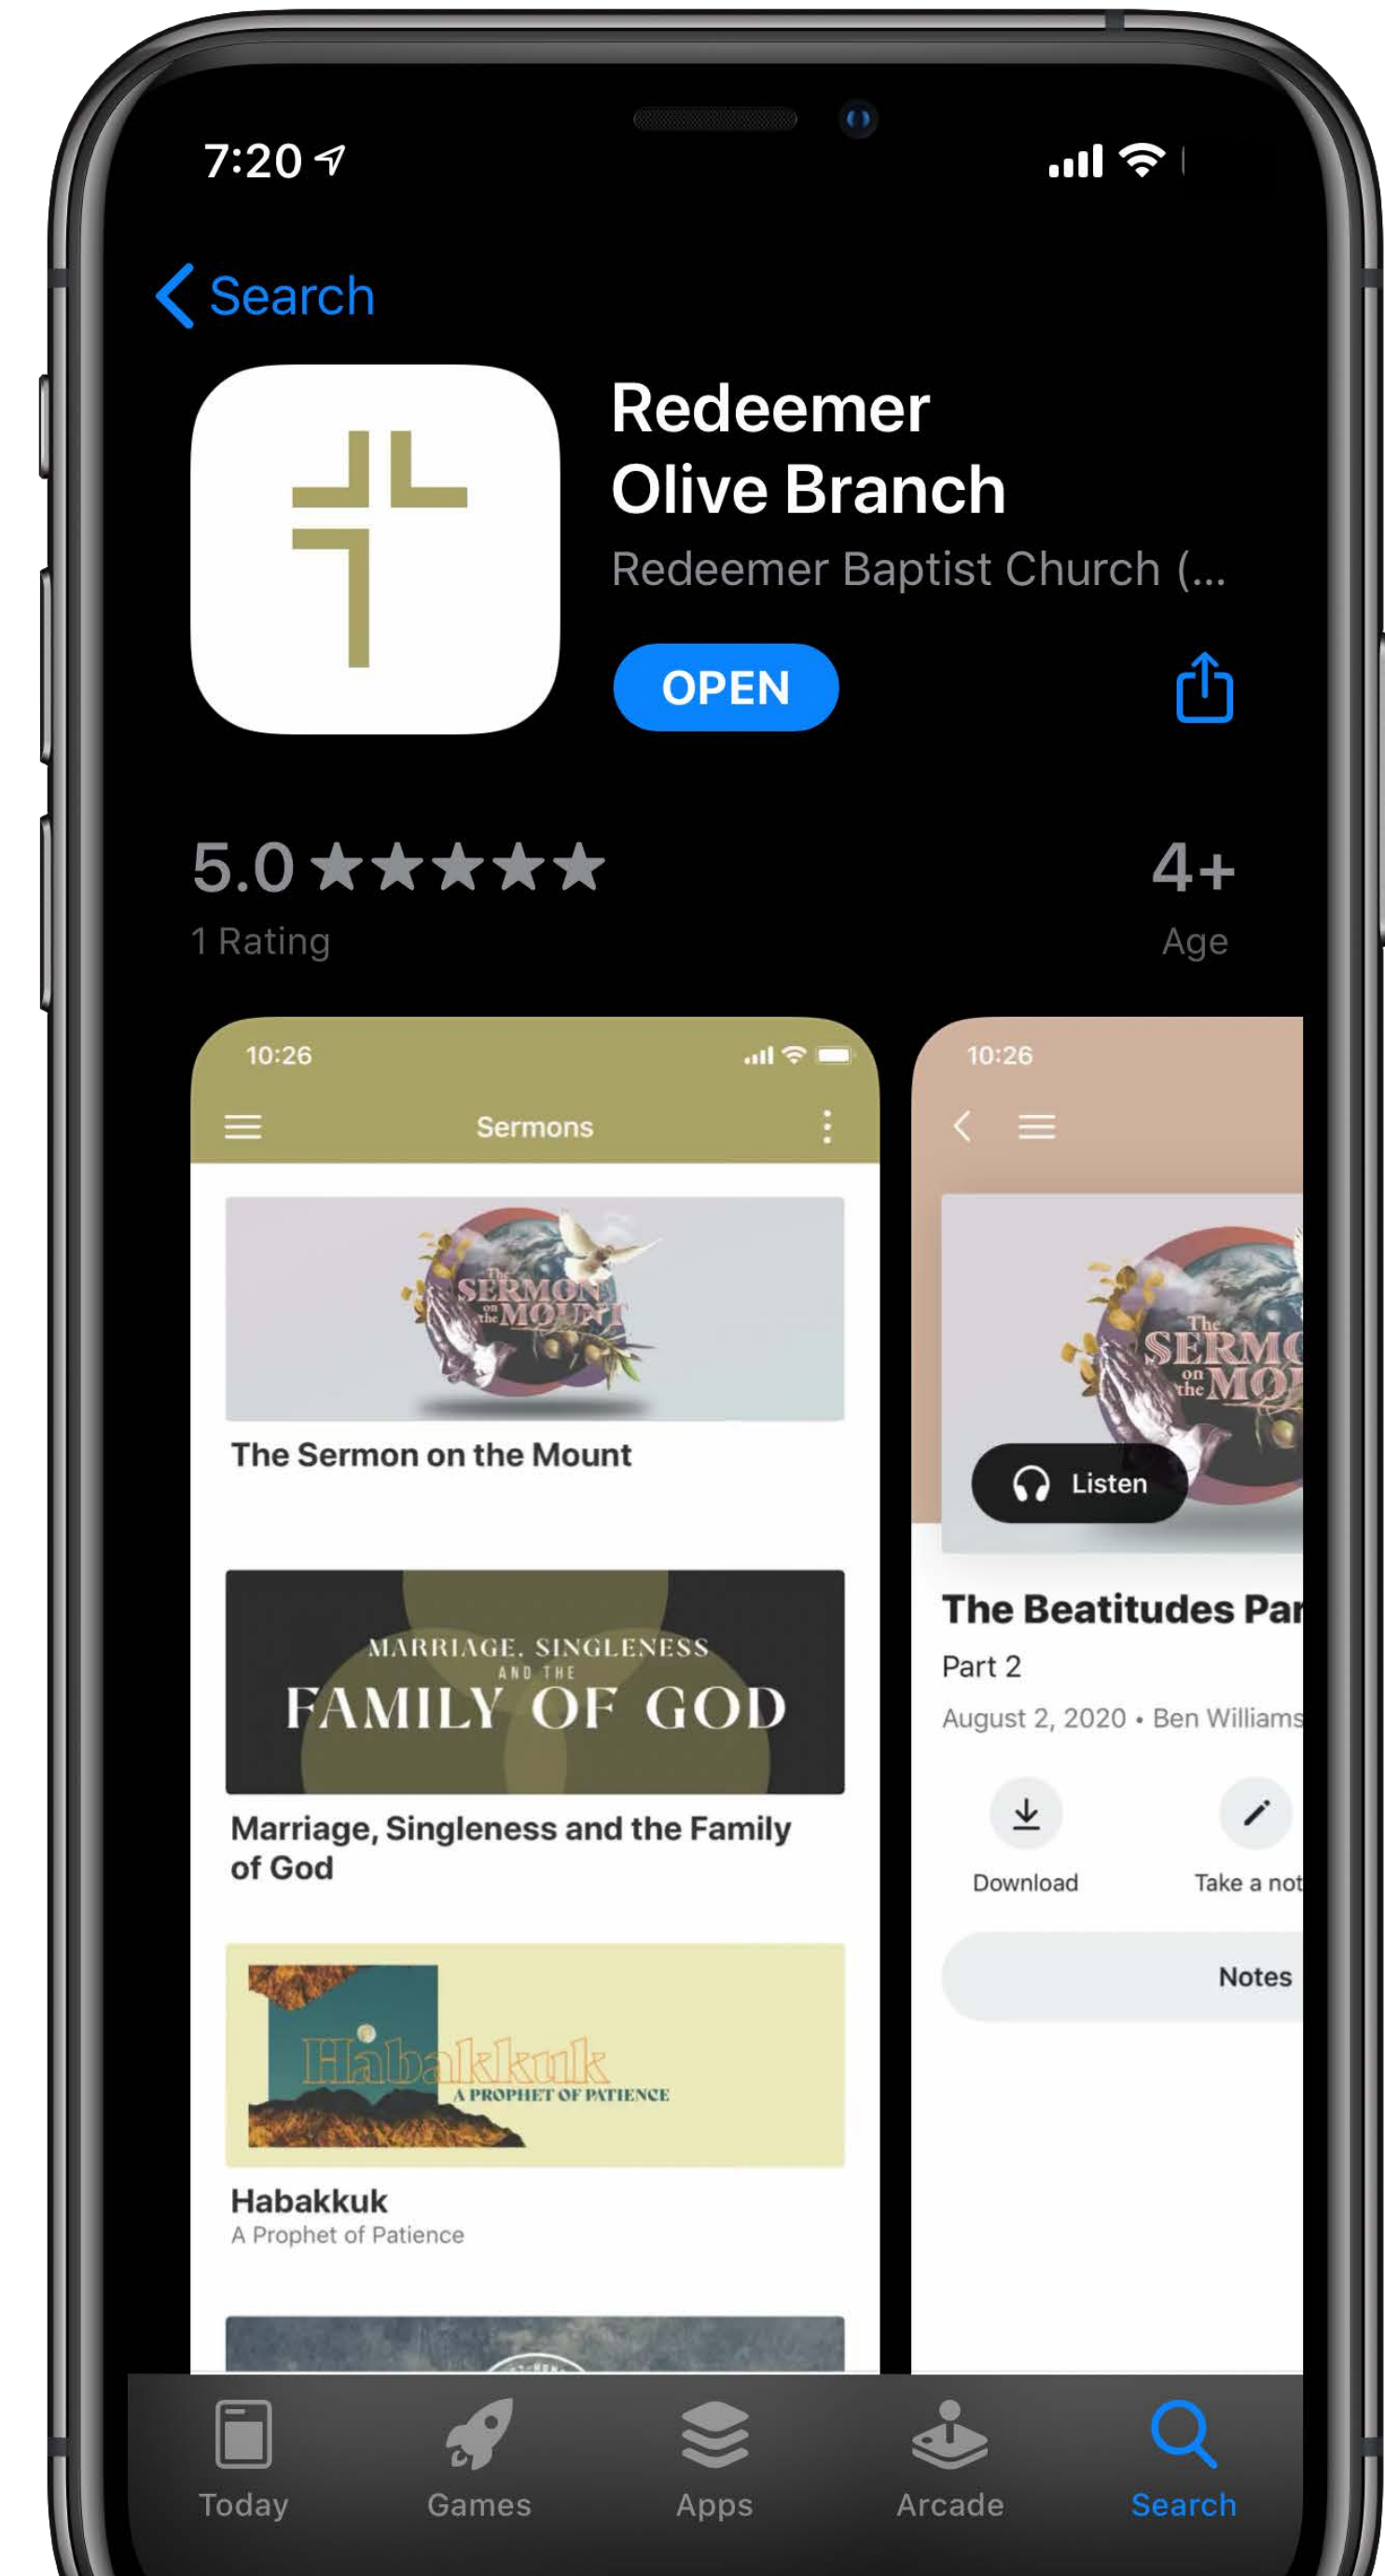

# Communication

# Installation & Setup

Search "Redeemer Olive Branch"  
In your app store.

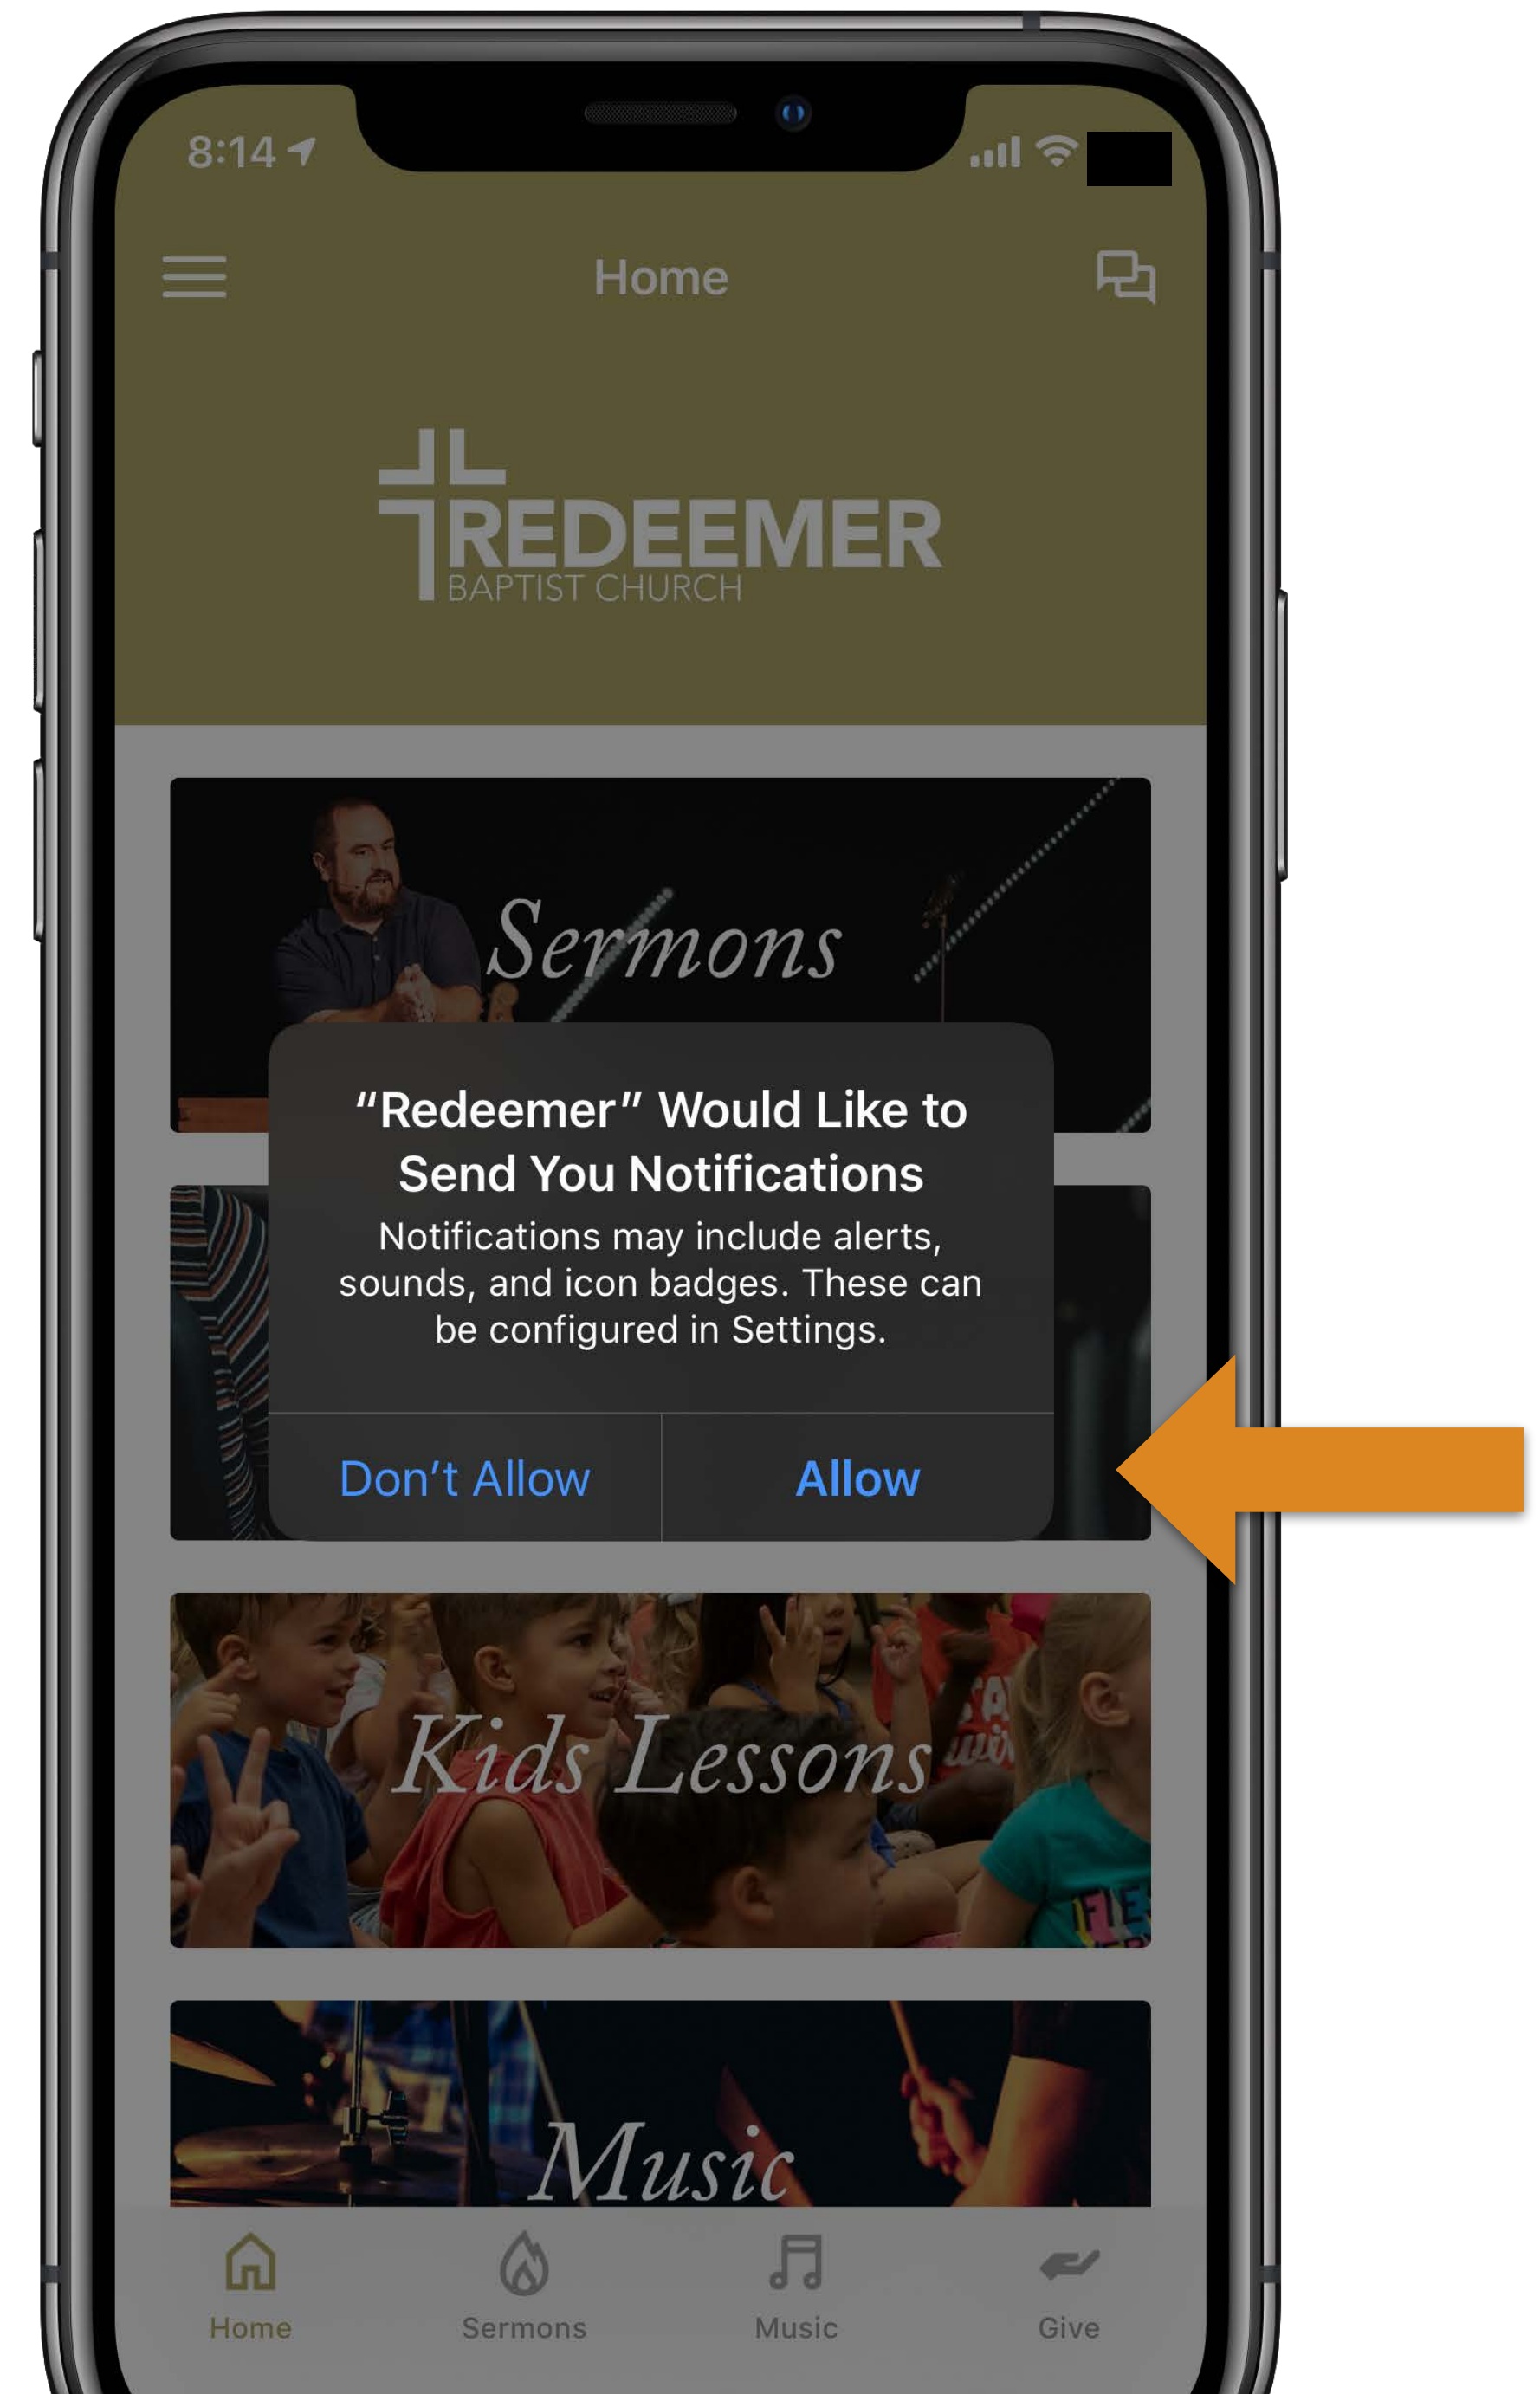

Download or install on your device

## Installation & Setup

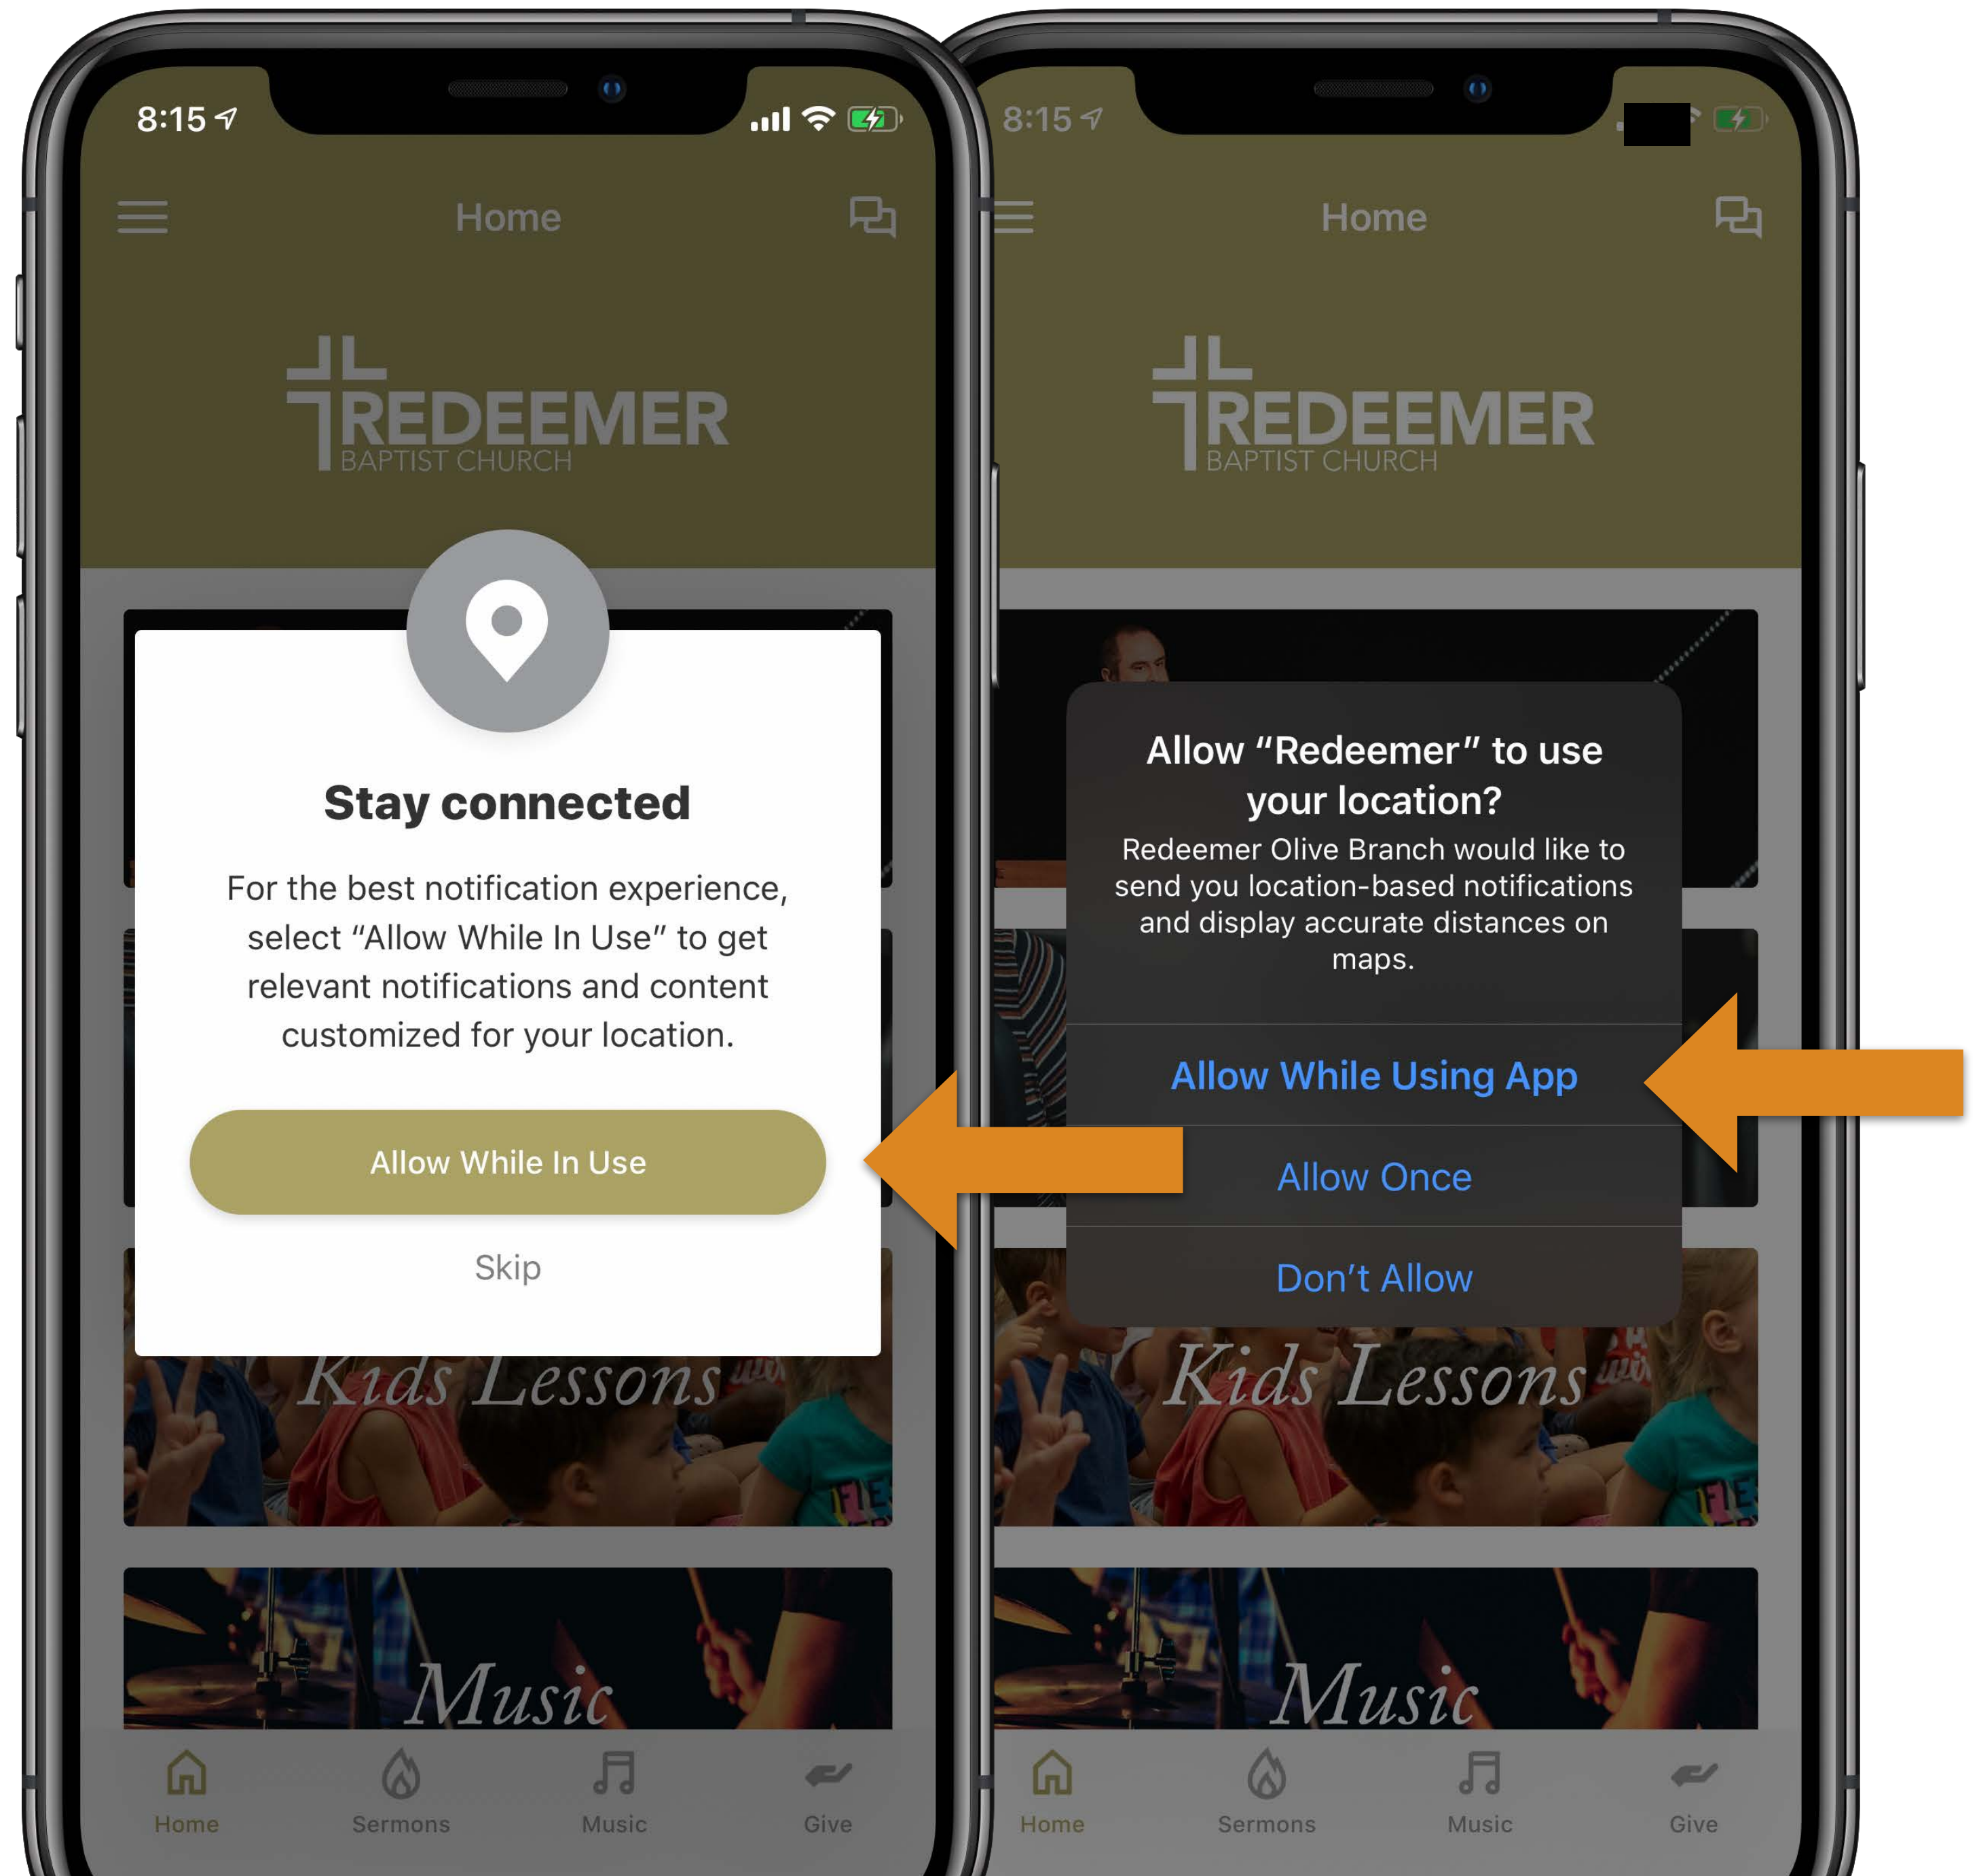

When prompted - ***please allow the app to send you notifications.*** This allows you to receive regular updates about new items, announcements and events.

You will be able to customize the type of notifications you receive later on.

# Installation & Setup

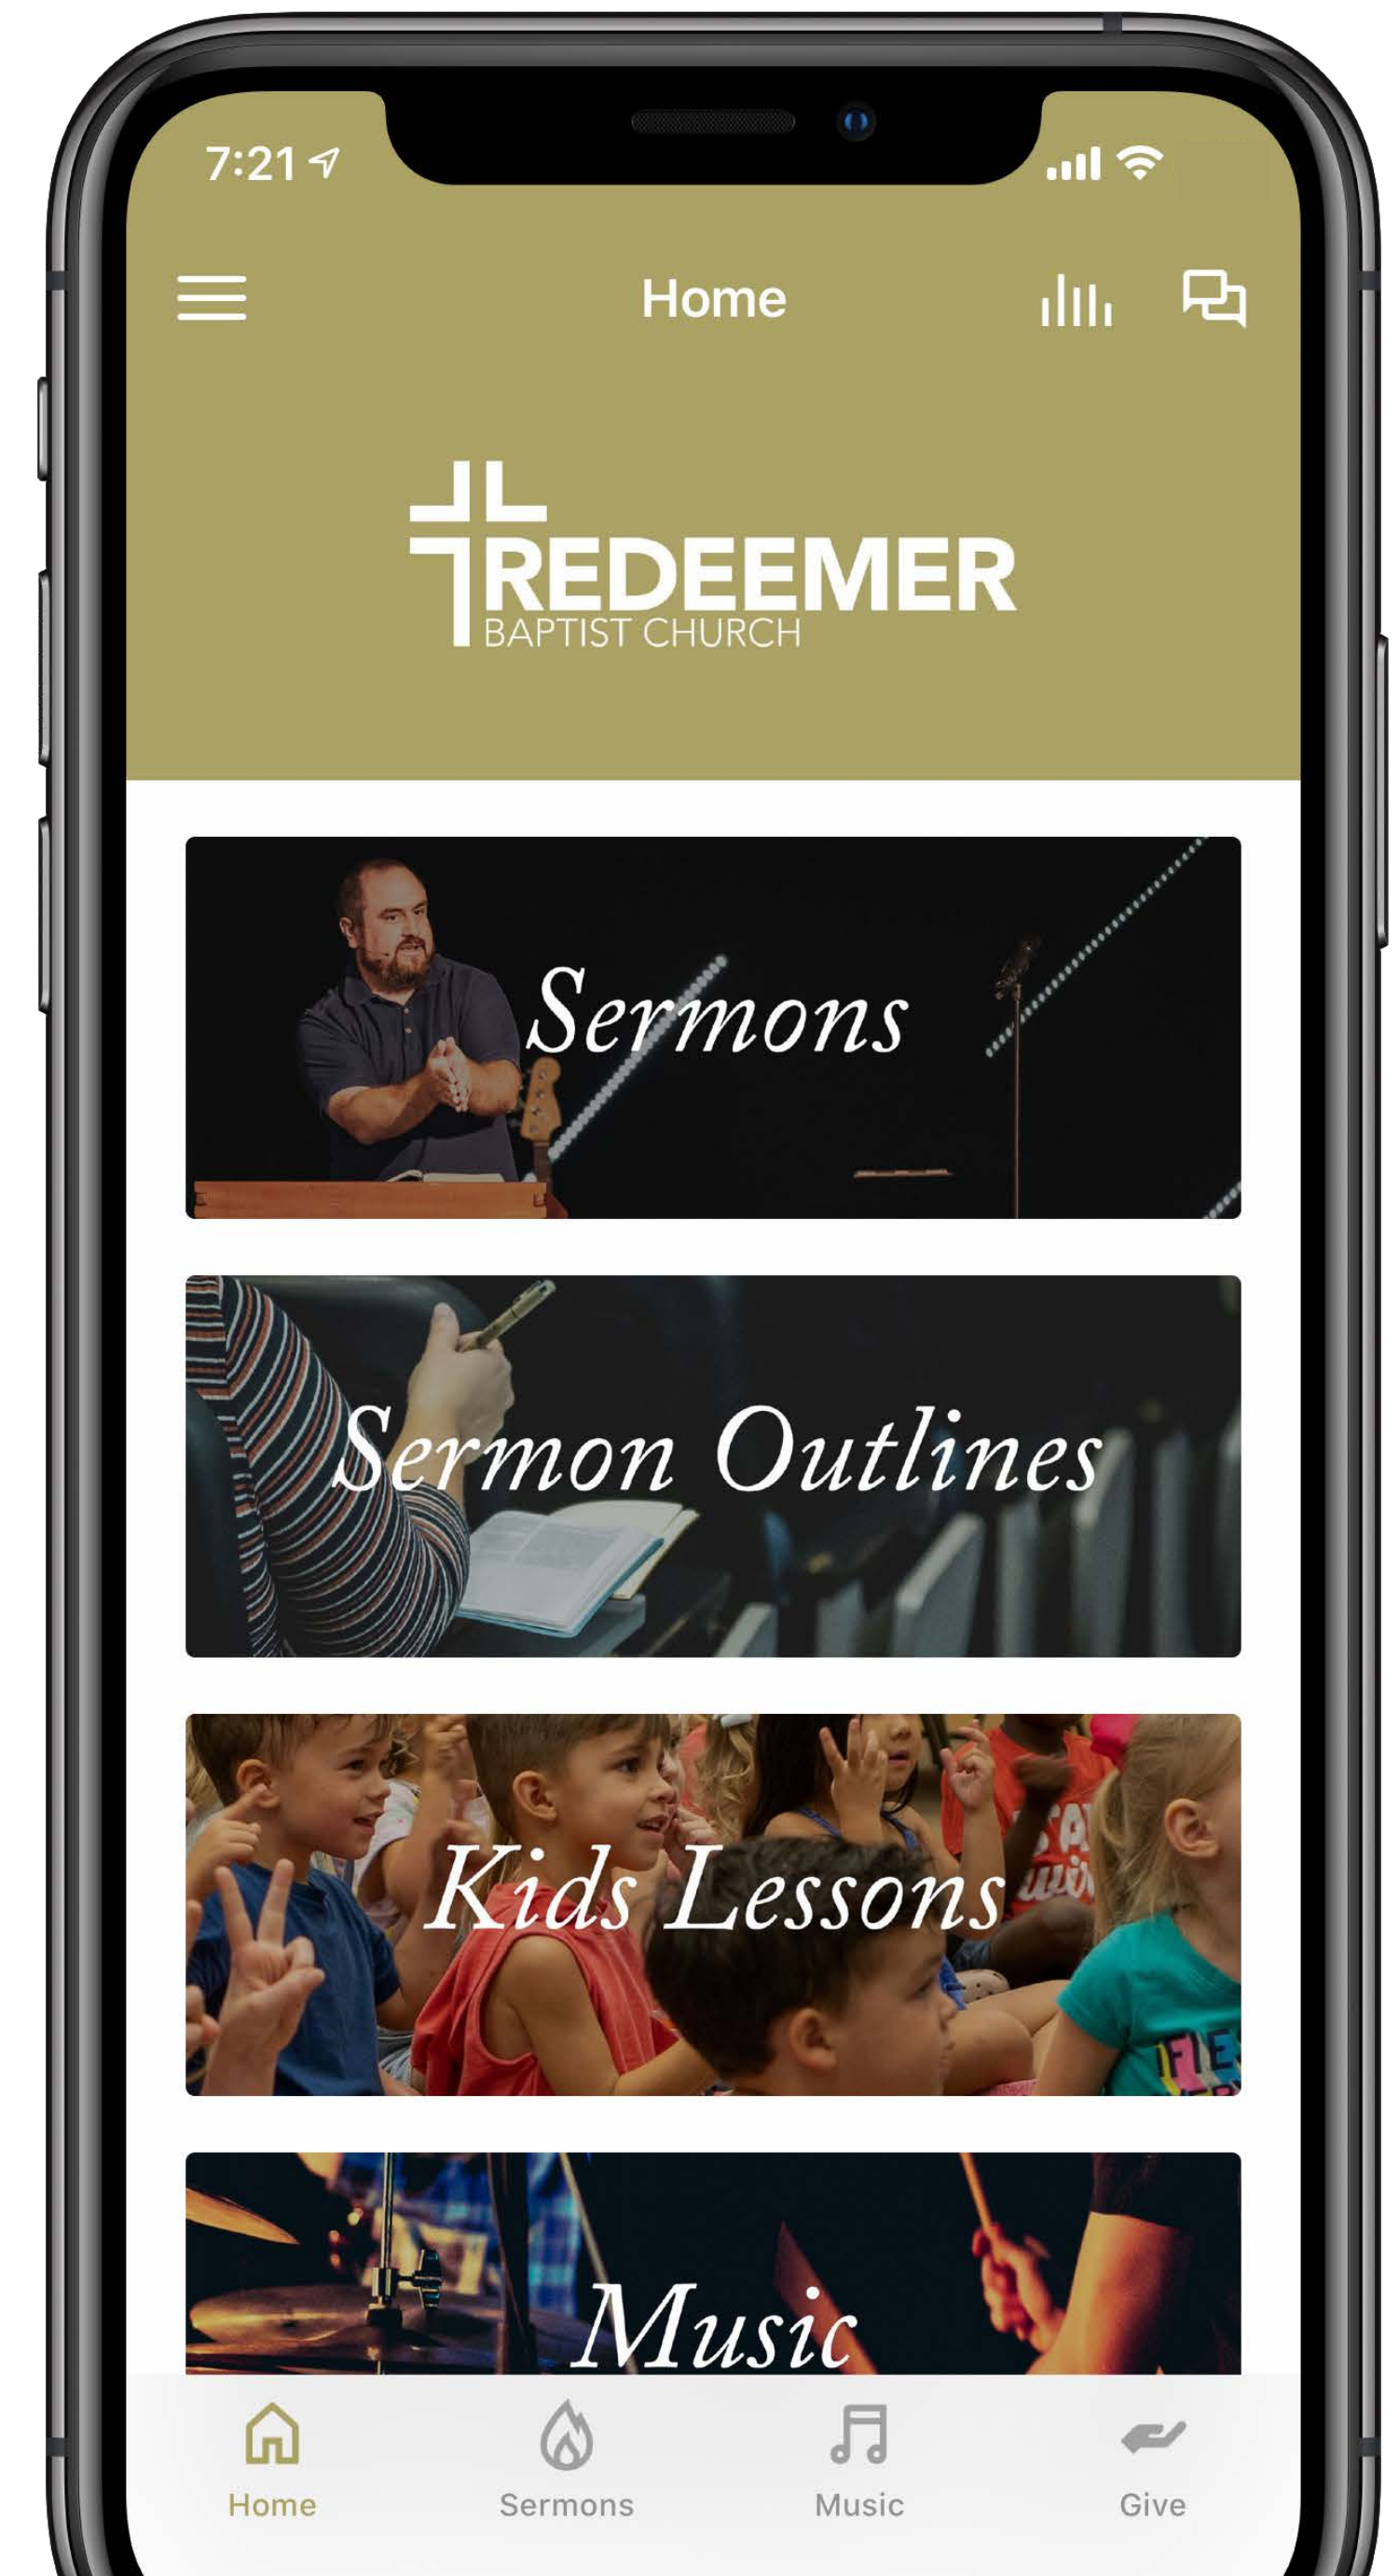

Location information can be used to send notifications specific to our attendees. This is optional and not likely to be used often. To enable, select "allow while using app" on both of these screens.

## Installation & Setup

Once your notification settings have been selected, you're free to explore the app!

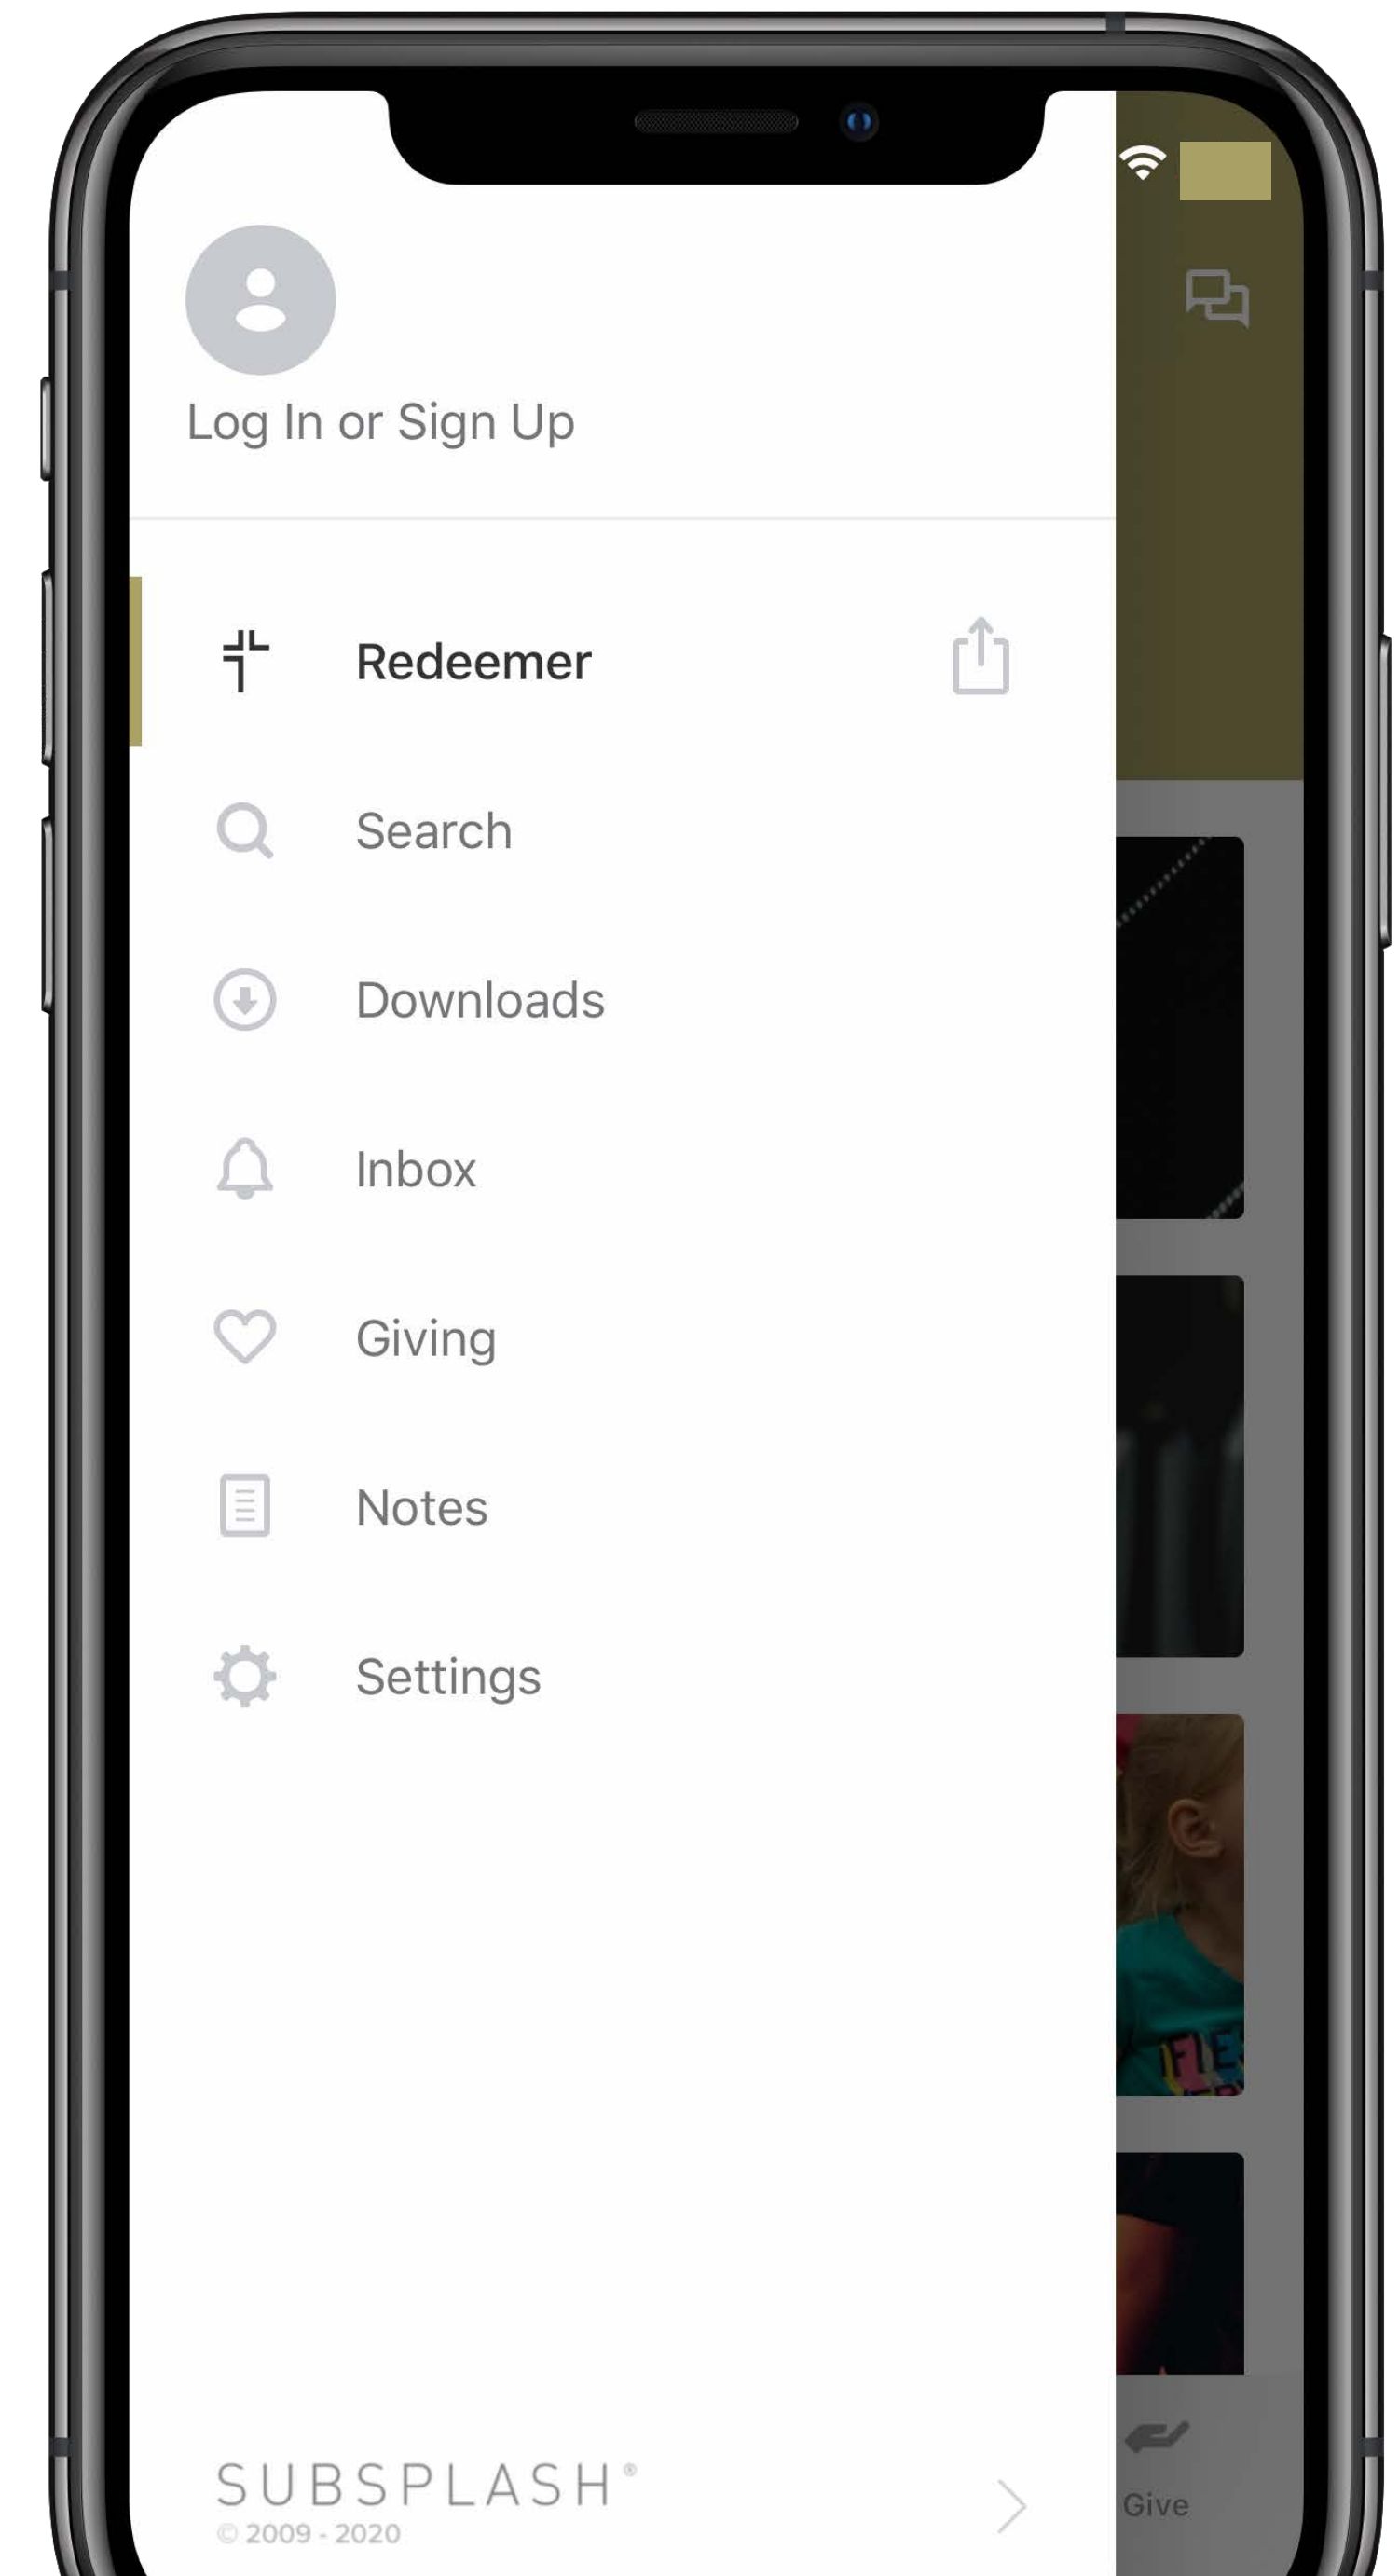

You'll find quick access to the latest sermons, music, kids lessons, calendars and more.

## Account Signup

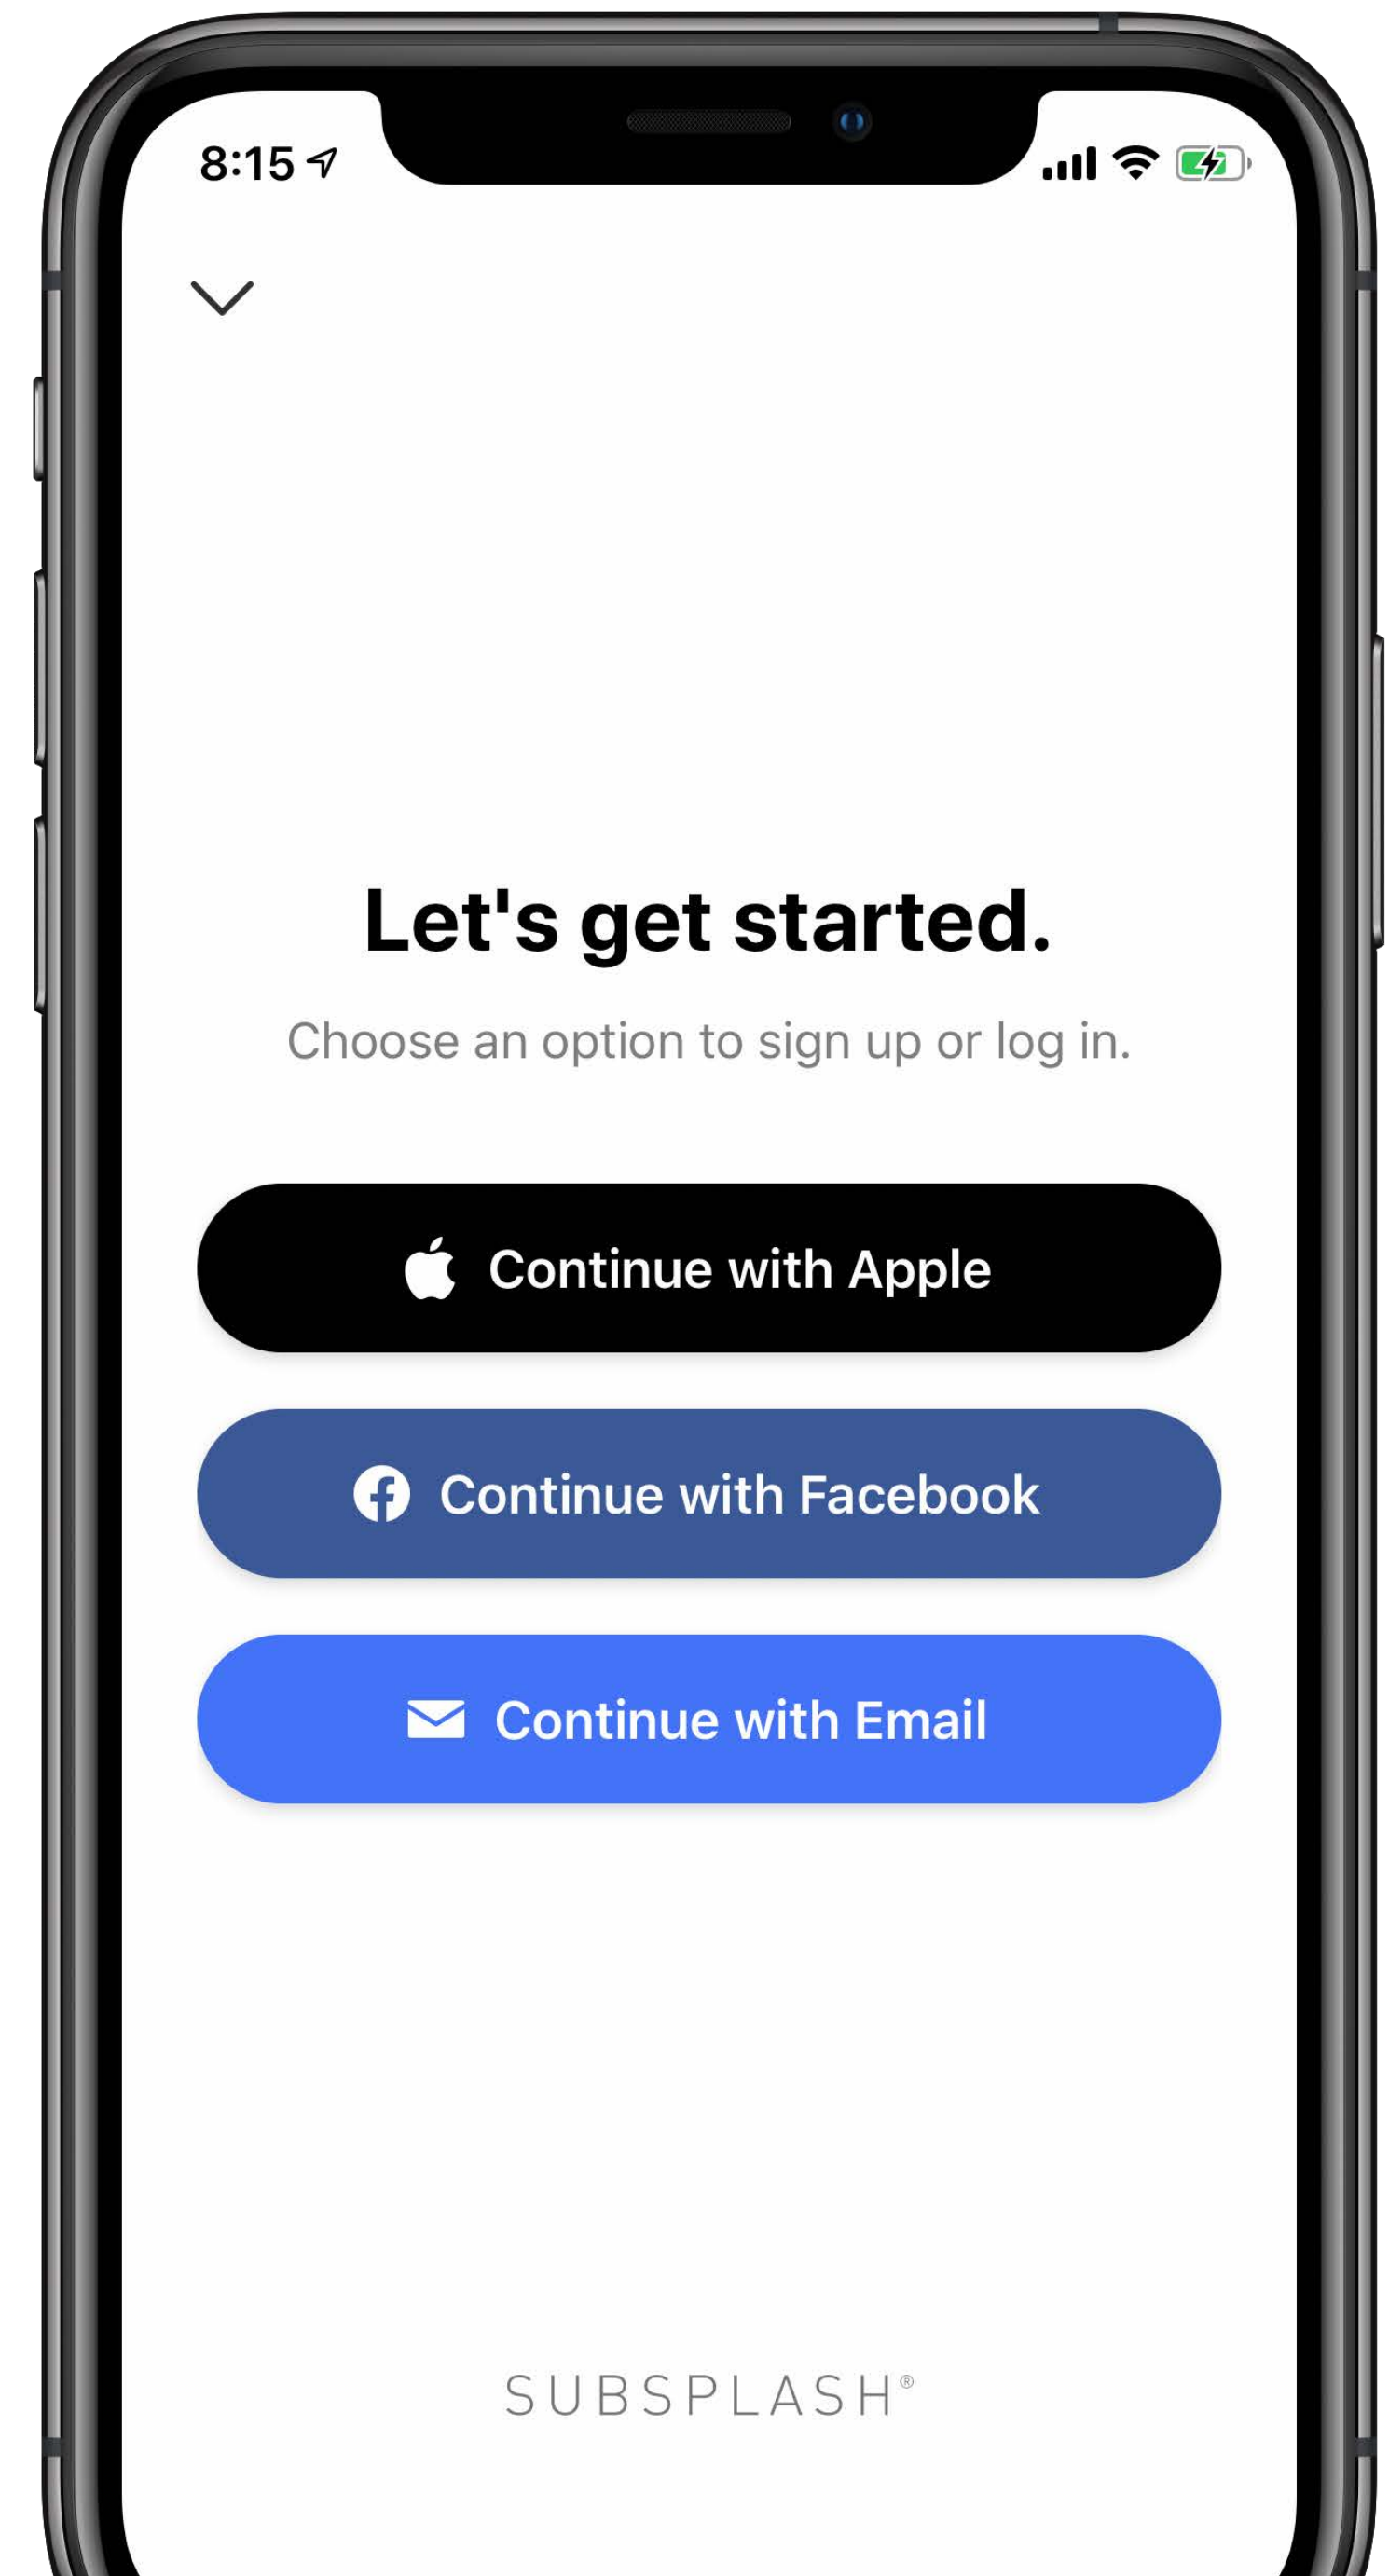

Signing up for a Redeemer App account opens up a lot of great features.

Use the menu icon in the top left, then tap **“Log In or Sign Up”** at the top.

## Account Signup

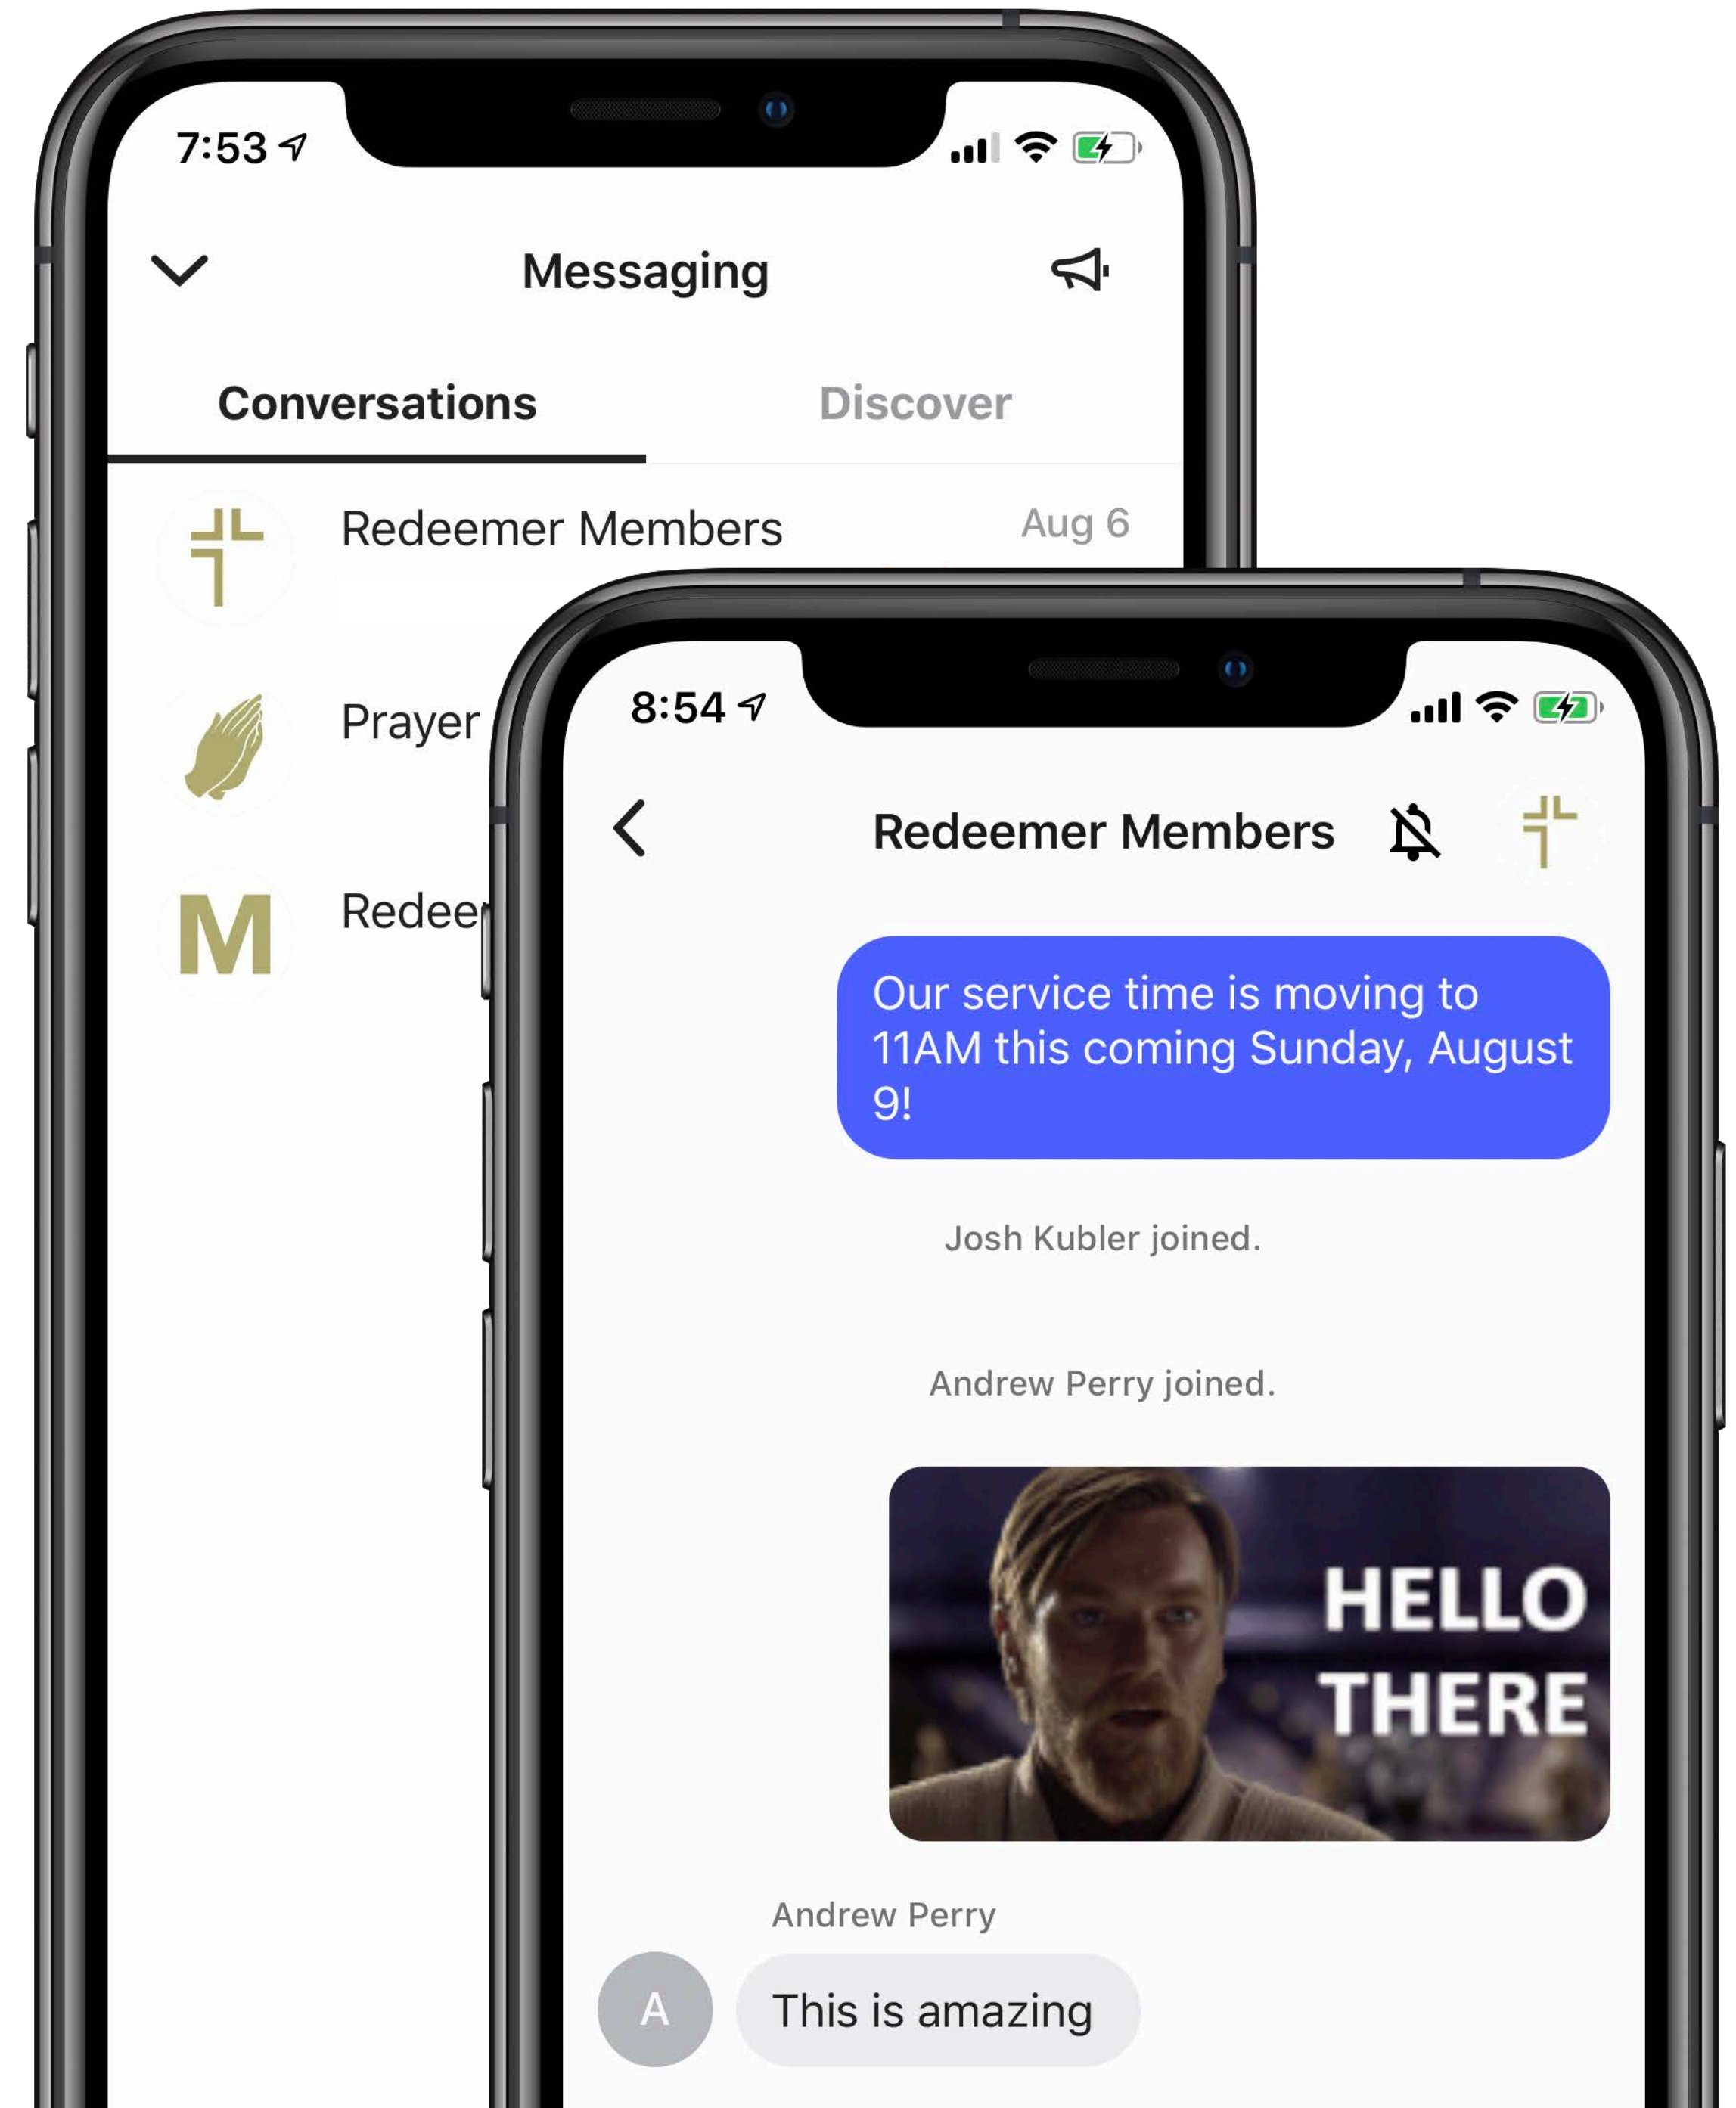

Feel free to use any of these convenient sign-in options. And don't worry, ***Redeemer cannot access any of your personal information.***

# Messaging

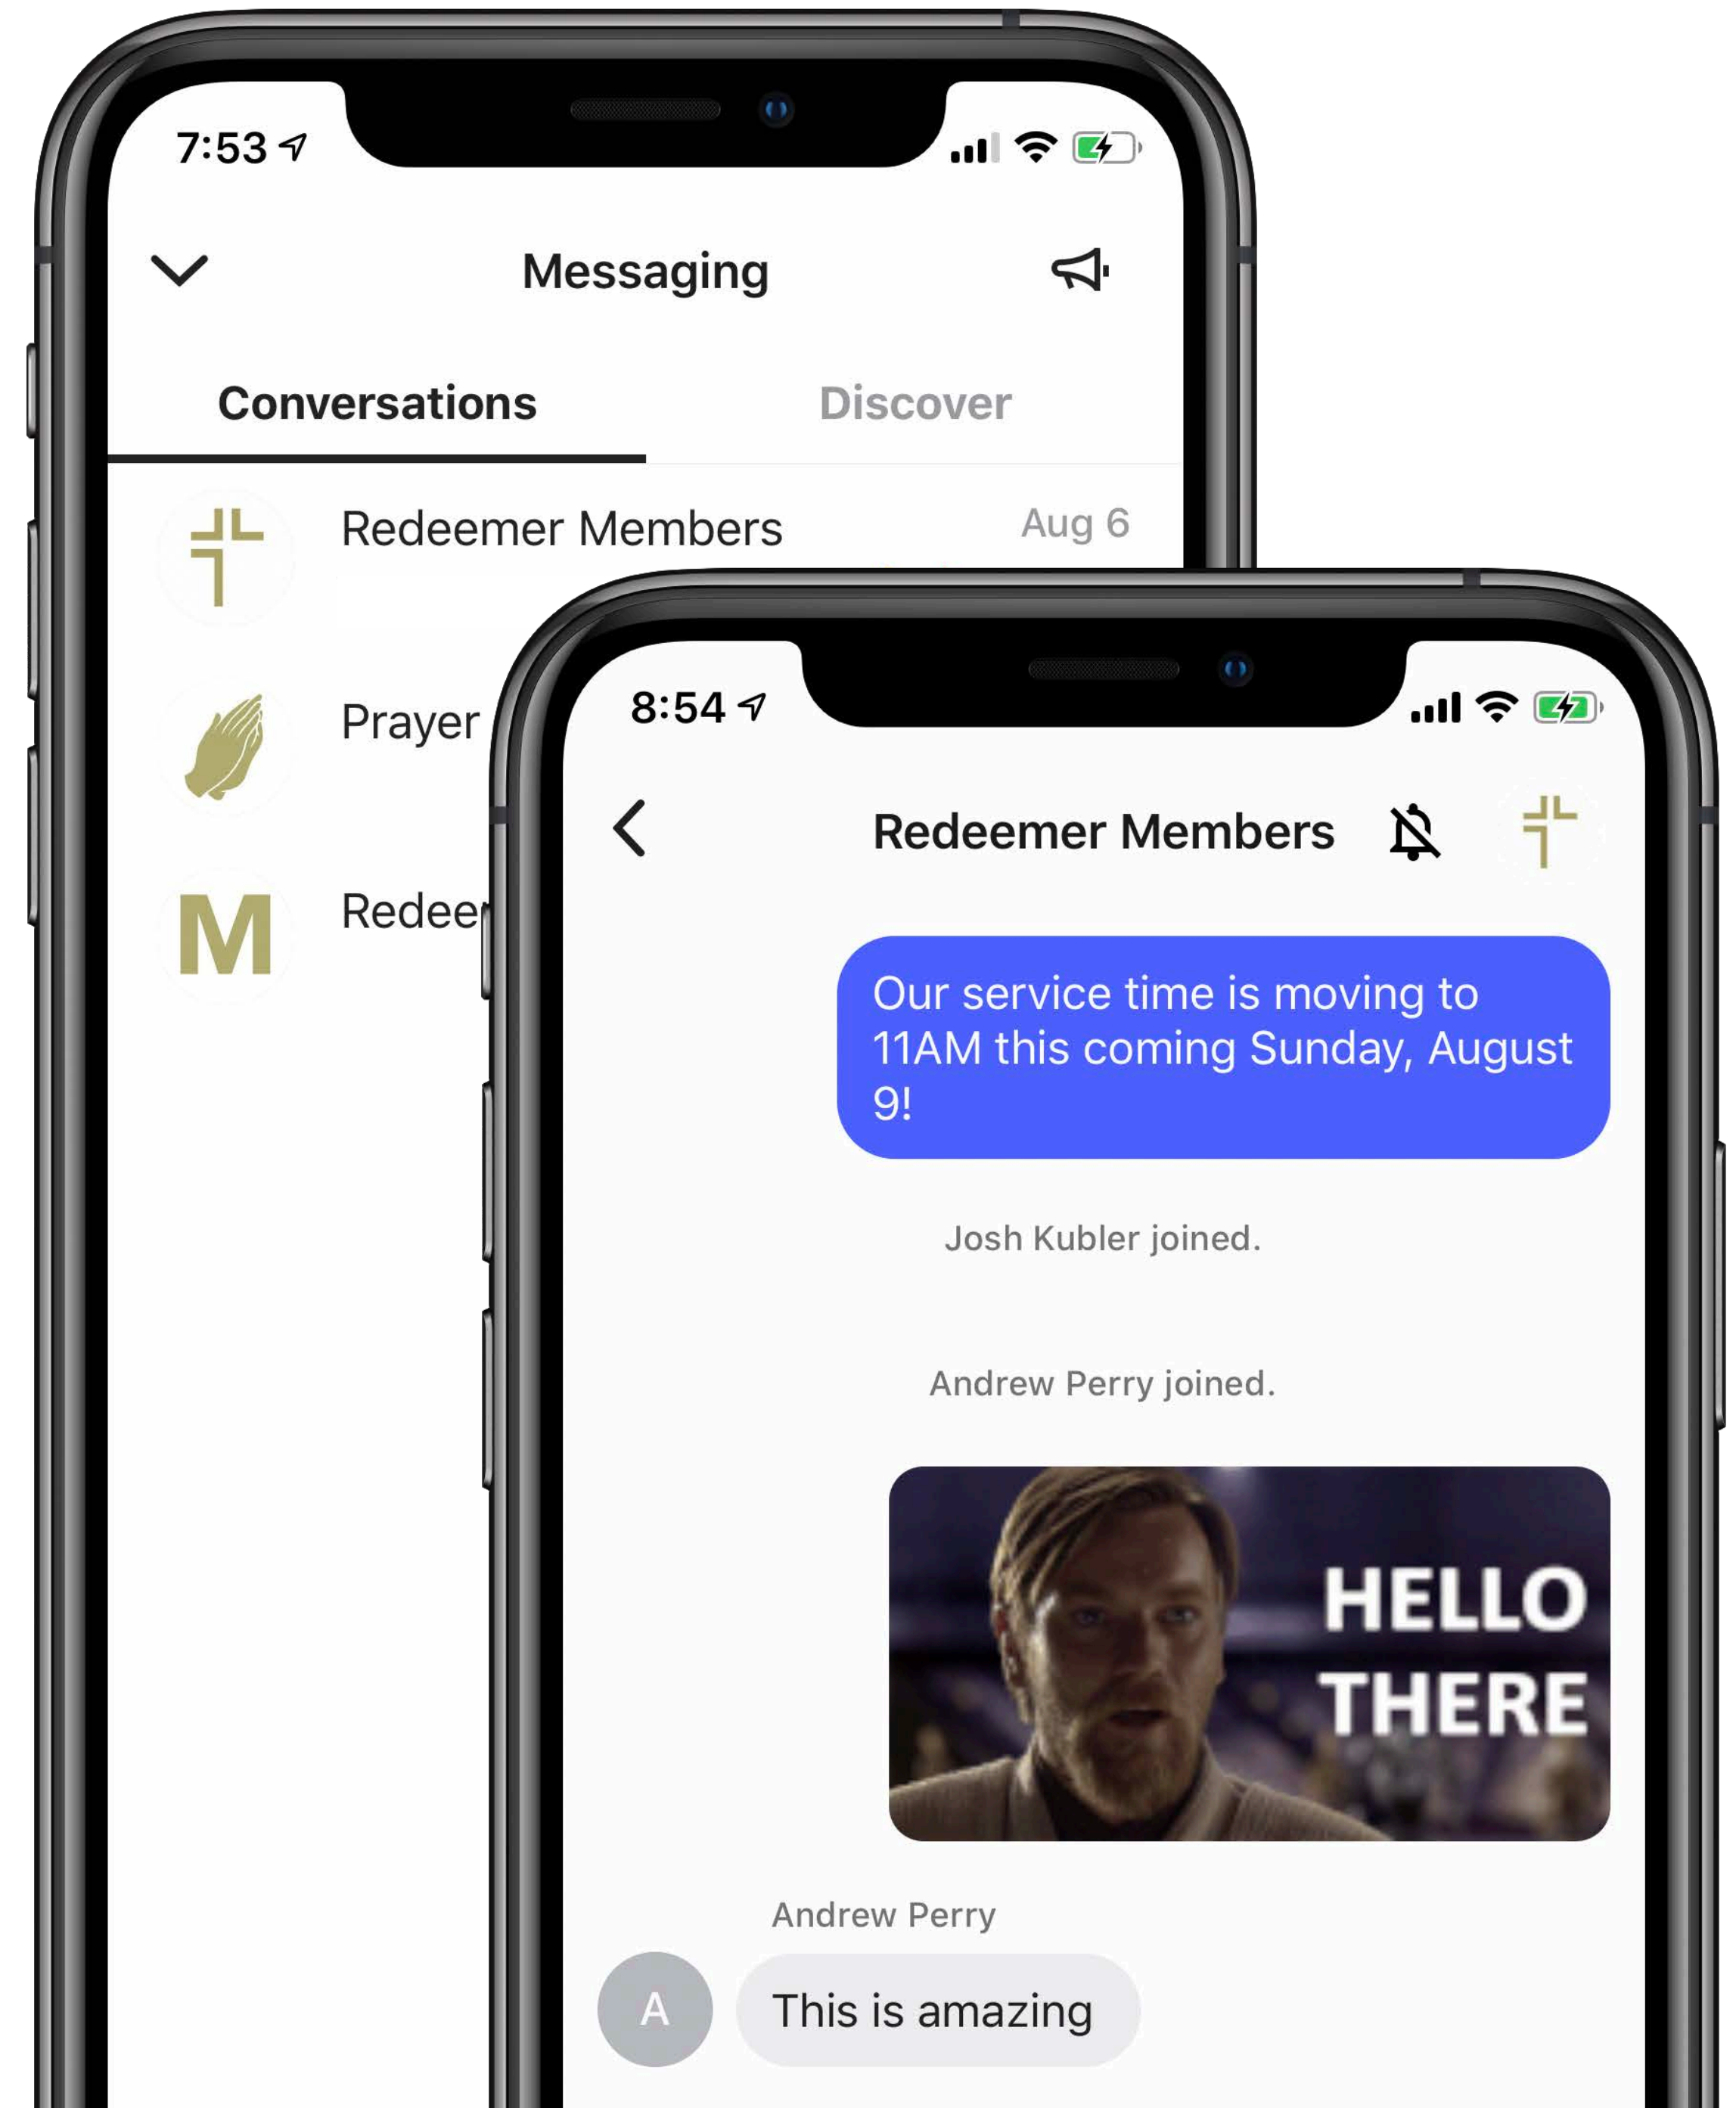

Signing up for a Redeemer account gives you access to our messaging channels. These channels let us communicate as groups in the church.

## Messaging

Once you have signed up for an account, **tap *Discover*** and join the ***Redeemer Public*** channel and let us know you've joined. We will add you to other relevant channels.

Our hope for messaging is to provide a place for ministry, community and communication to thrive. All channels are monitored by our pastors, who have full control to delete users or comments. Individual user-to-user messaging is not an included feature and only Redeemer staff have ability to create new channels. Most channels will include Redeemer members only, though some will be open to others at the Pastor's discretion.

# Notifications

We offer notification options for several ministries and features. We will use this feature to keep you up to date on announcements, info and news you might be interested in.

To customize your notifications, **tap the main menu then tap Settings > Notifications**

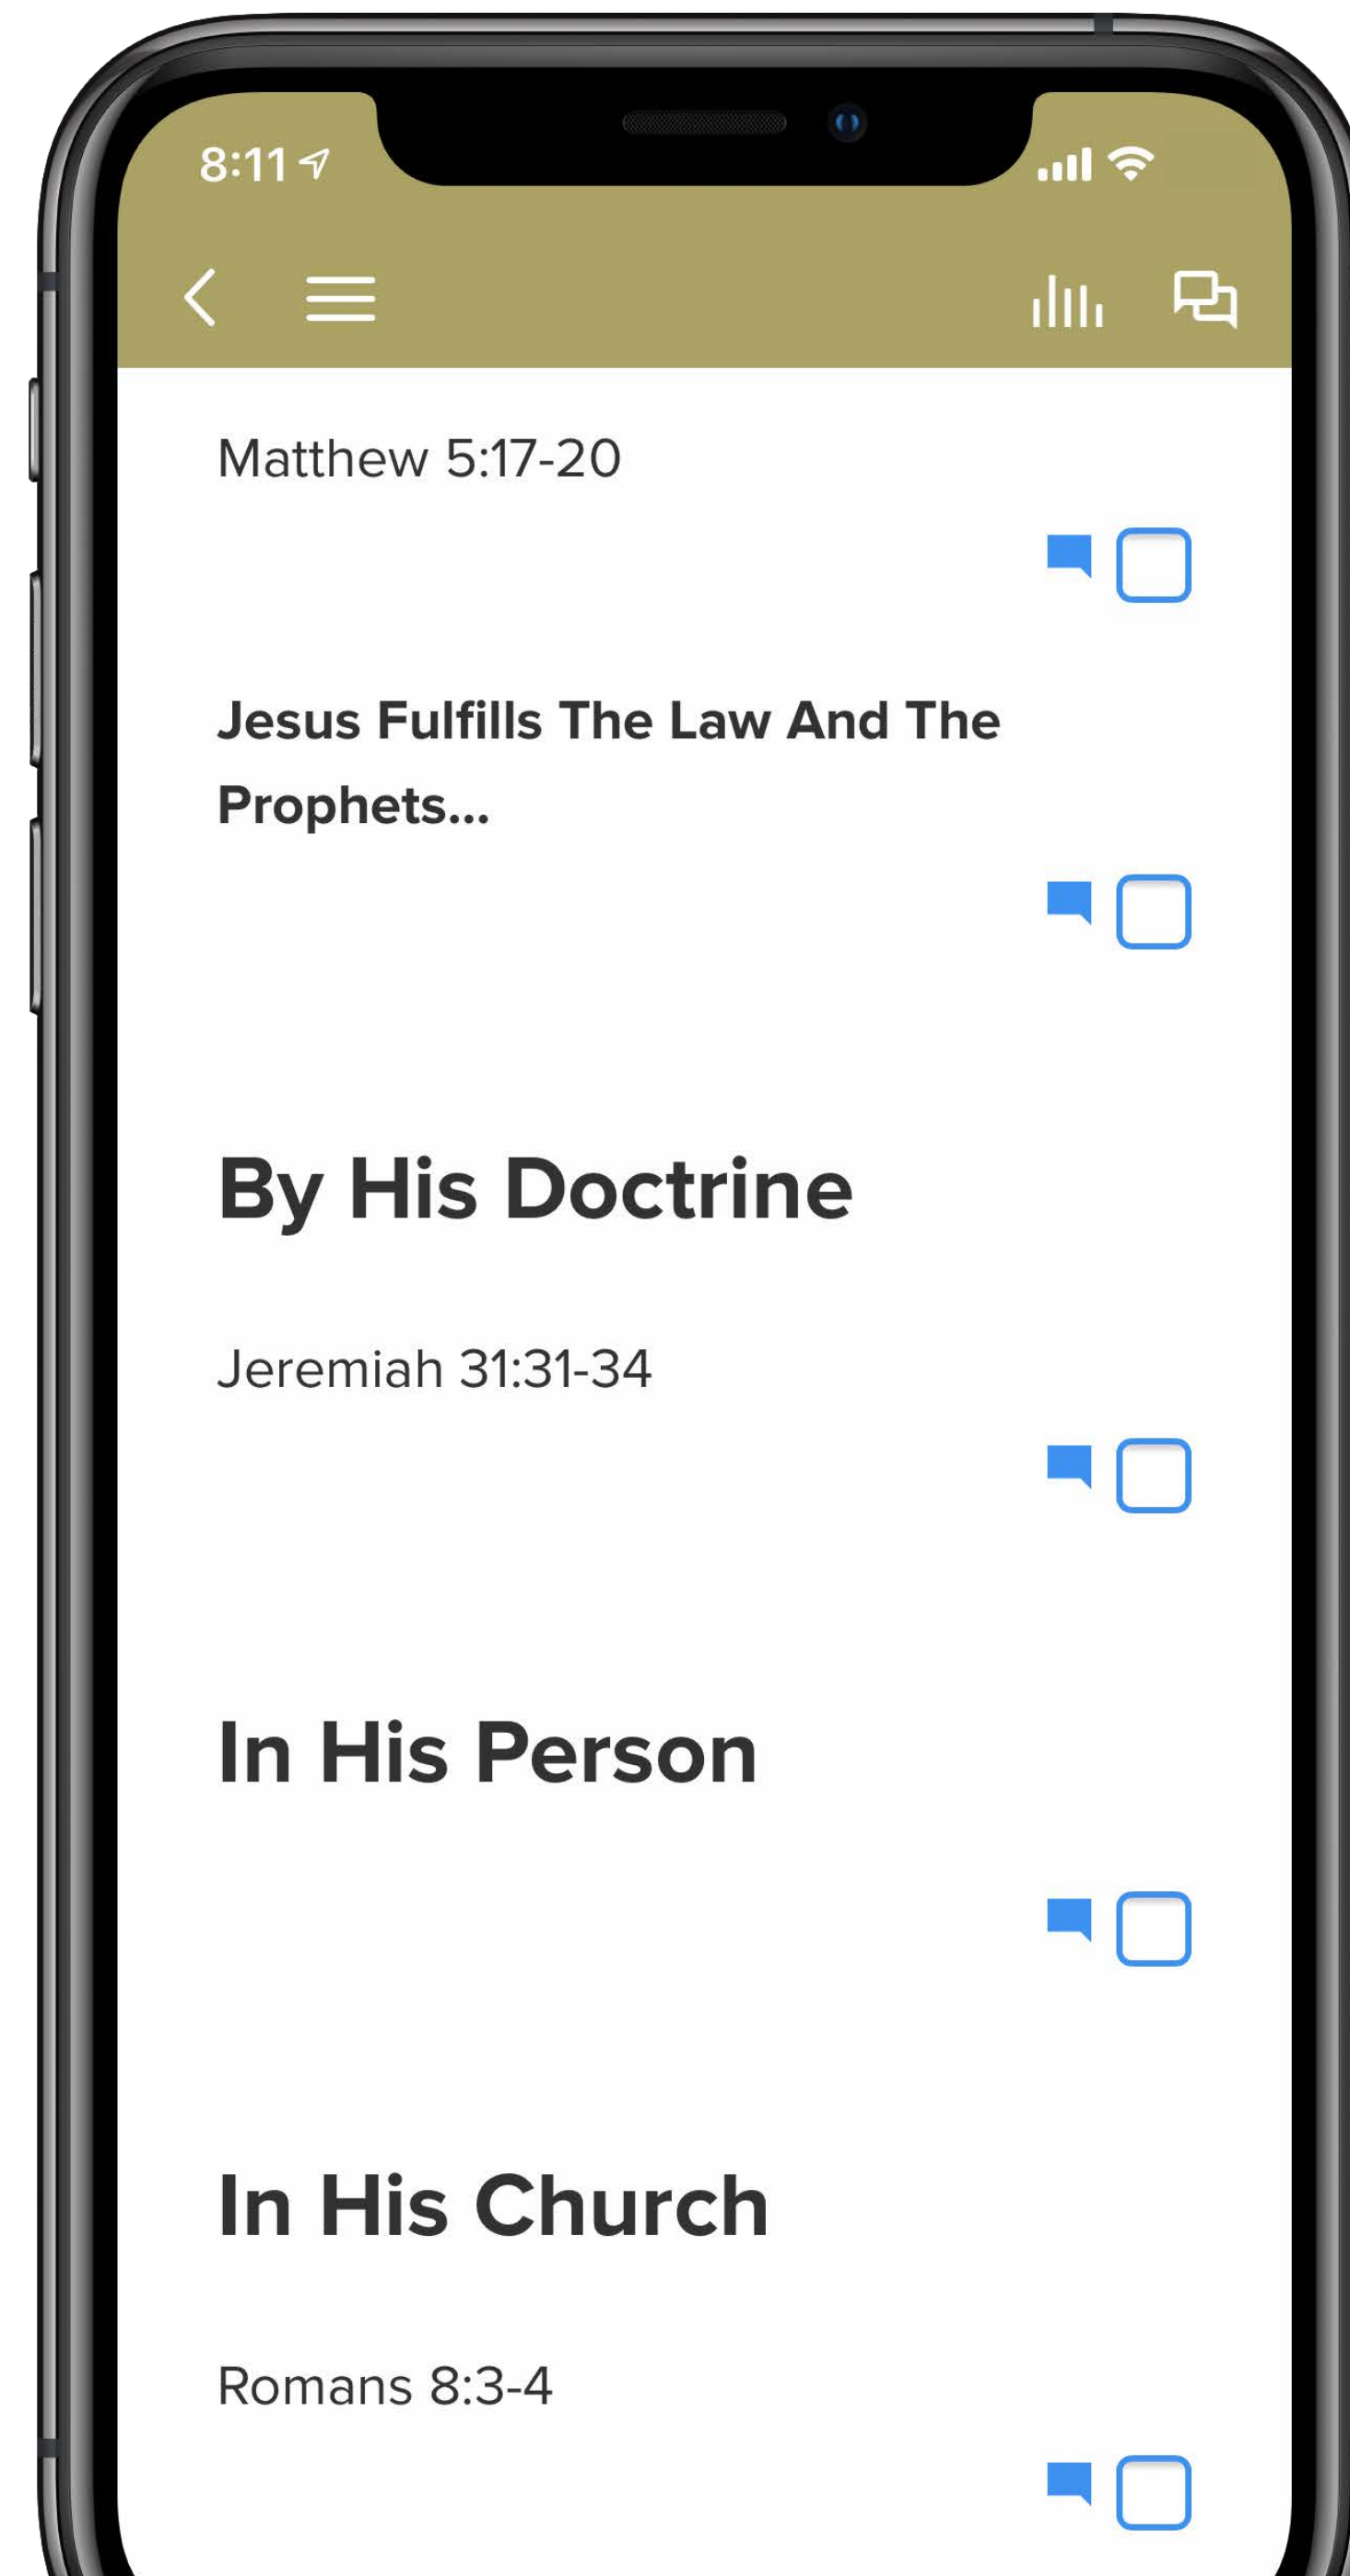

# Sermon Outlines

Sermon Outlines are a great way to follow along with each week's message.

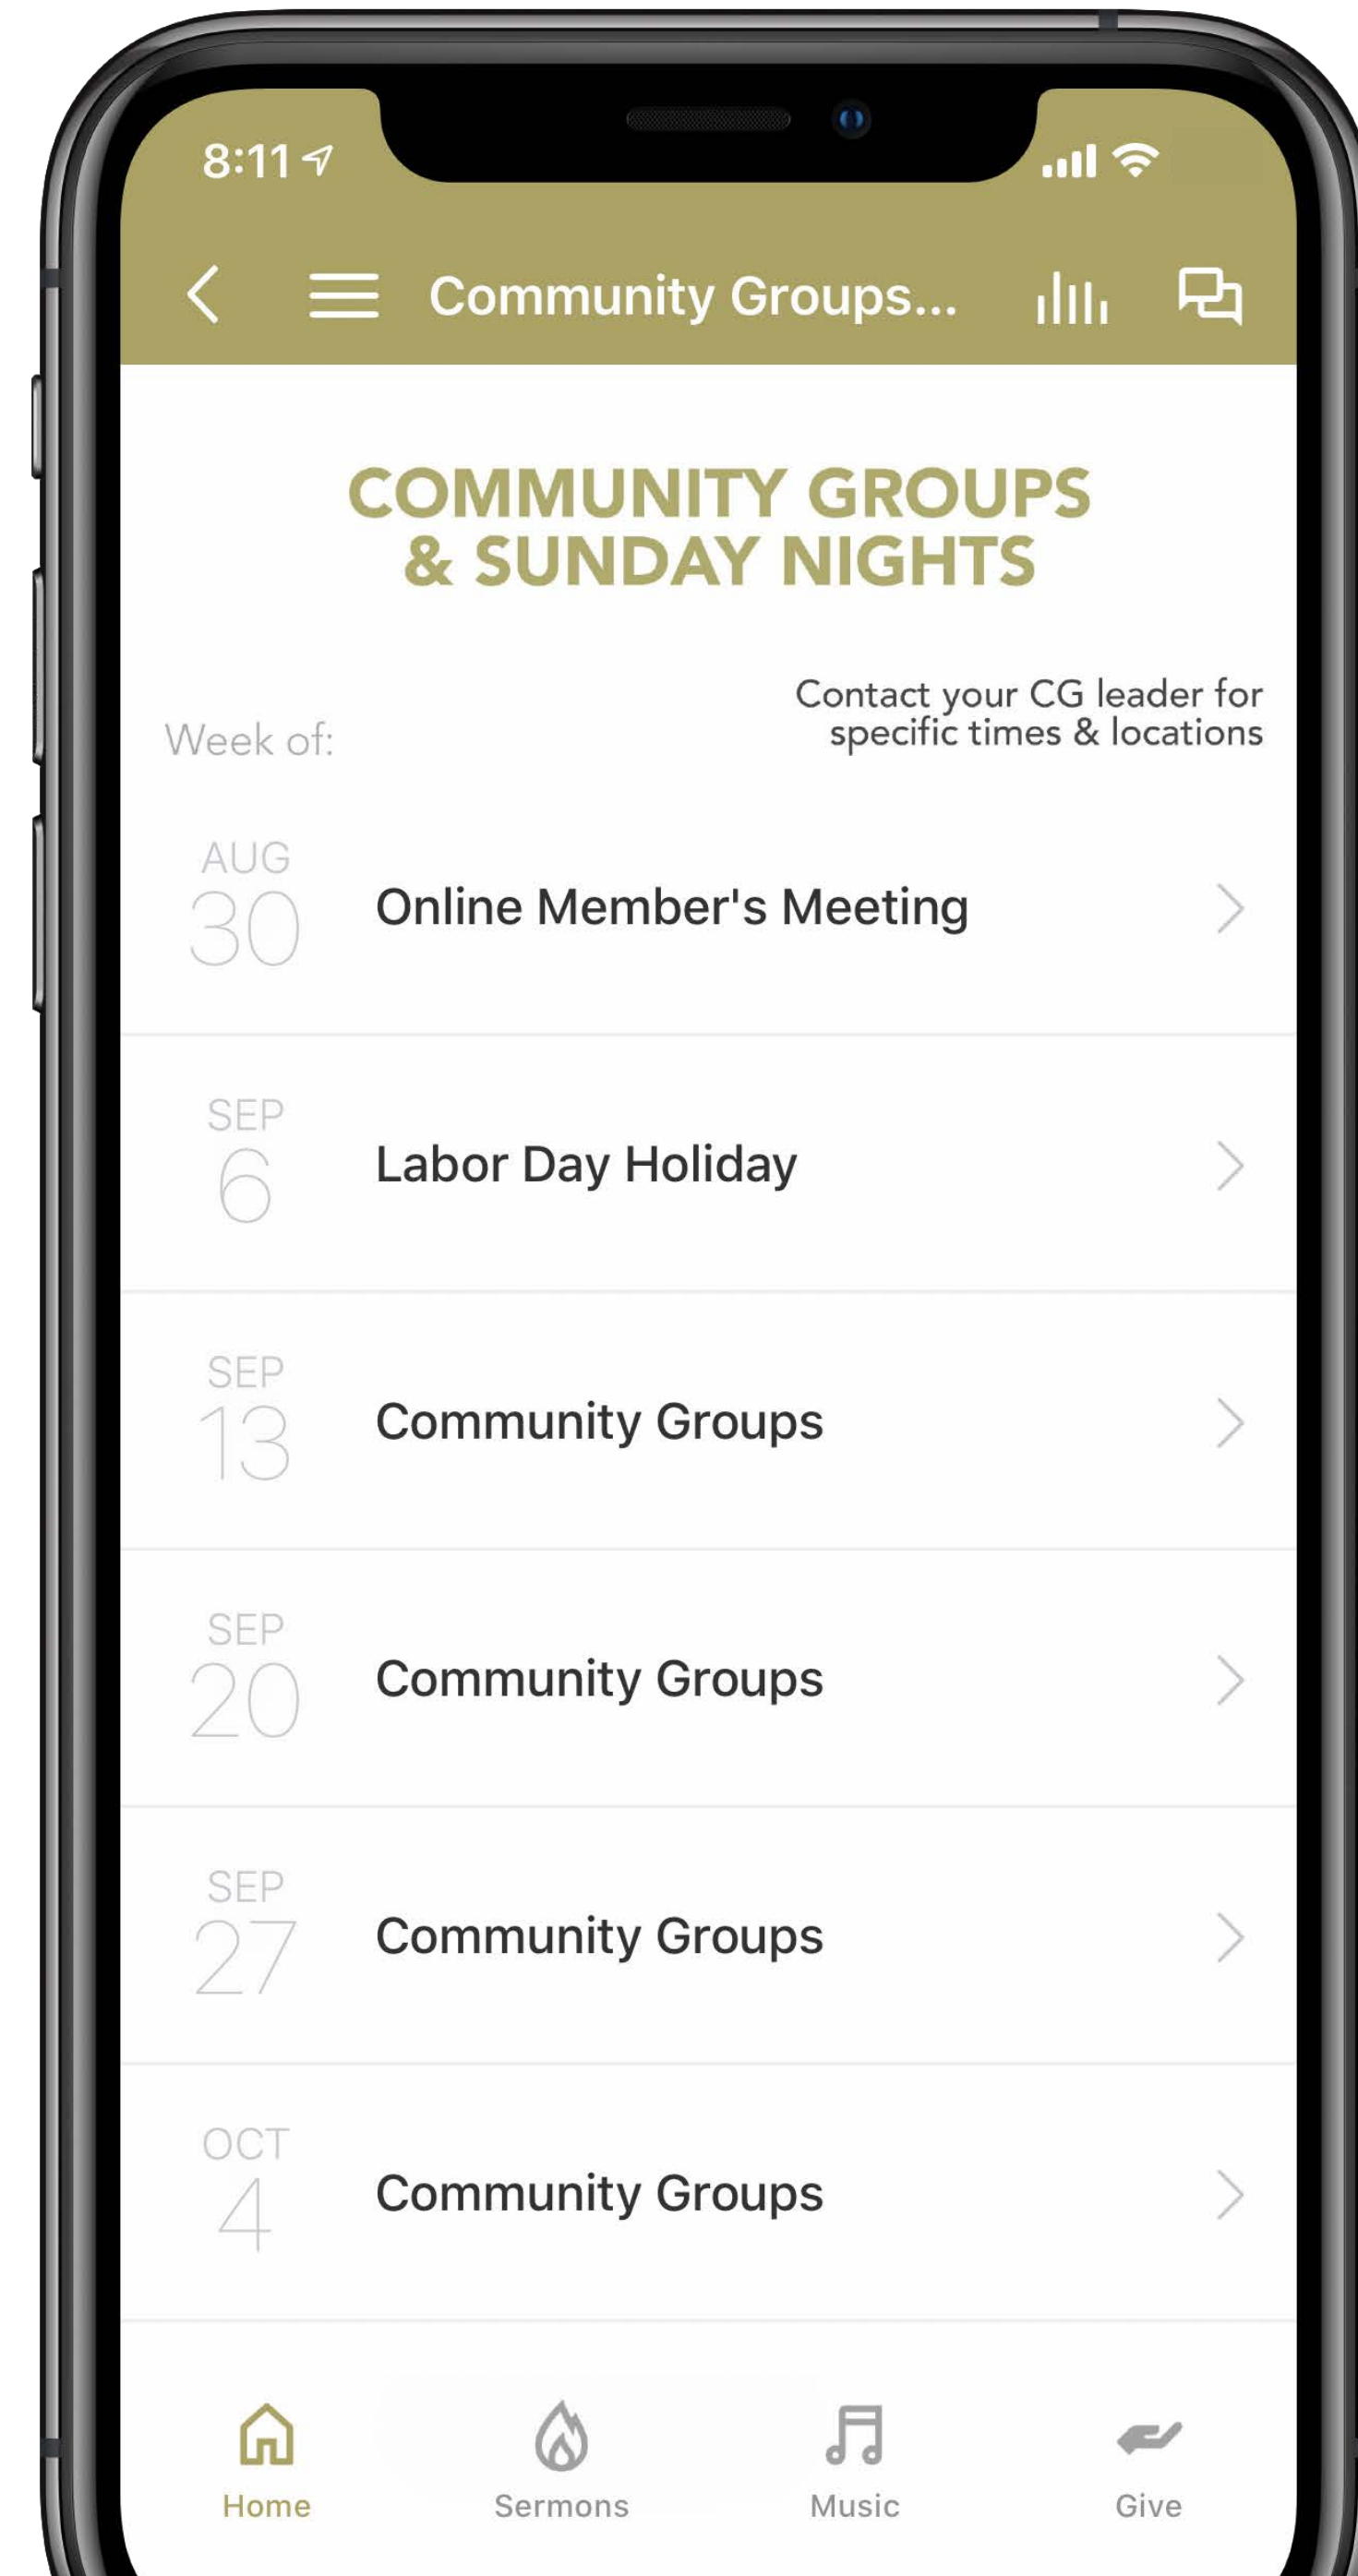

Use the blue text bubbles to input your own notes. When you're done, email them to yourself!

Most user-inputed notes will be saved in the app. But deleting/reinstalling the app or migrating to a new device might result in loss of personal notes. We suggest emailing the notes to yourself if you desire to keep them archived.

# Calendar & Events

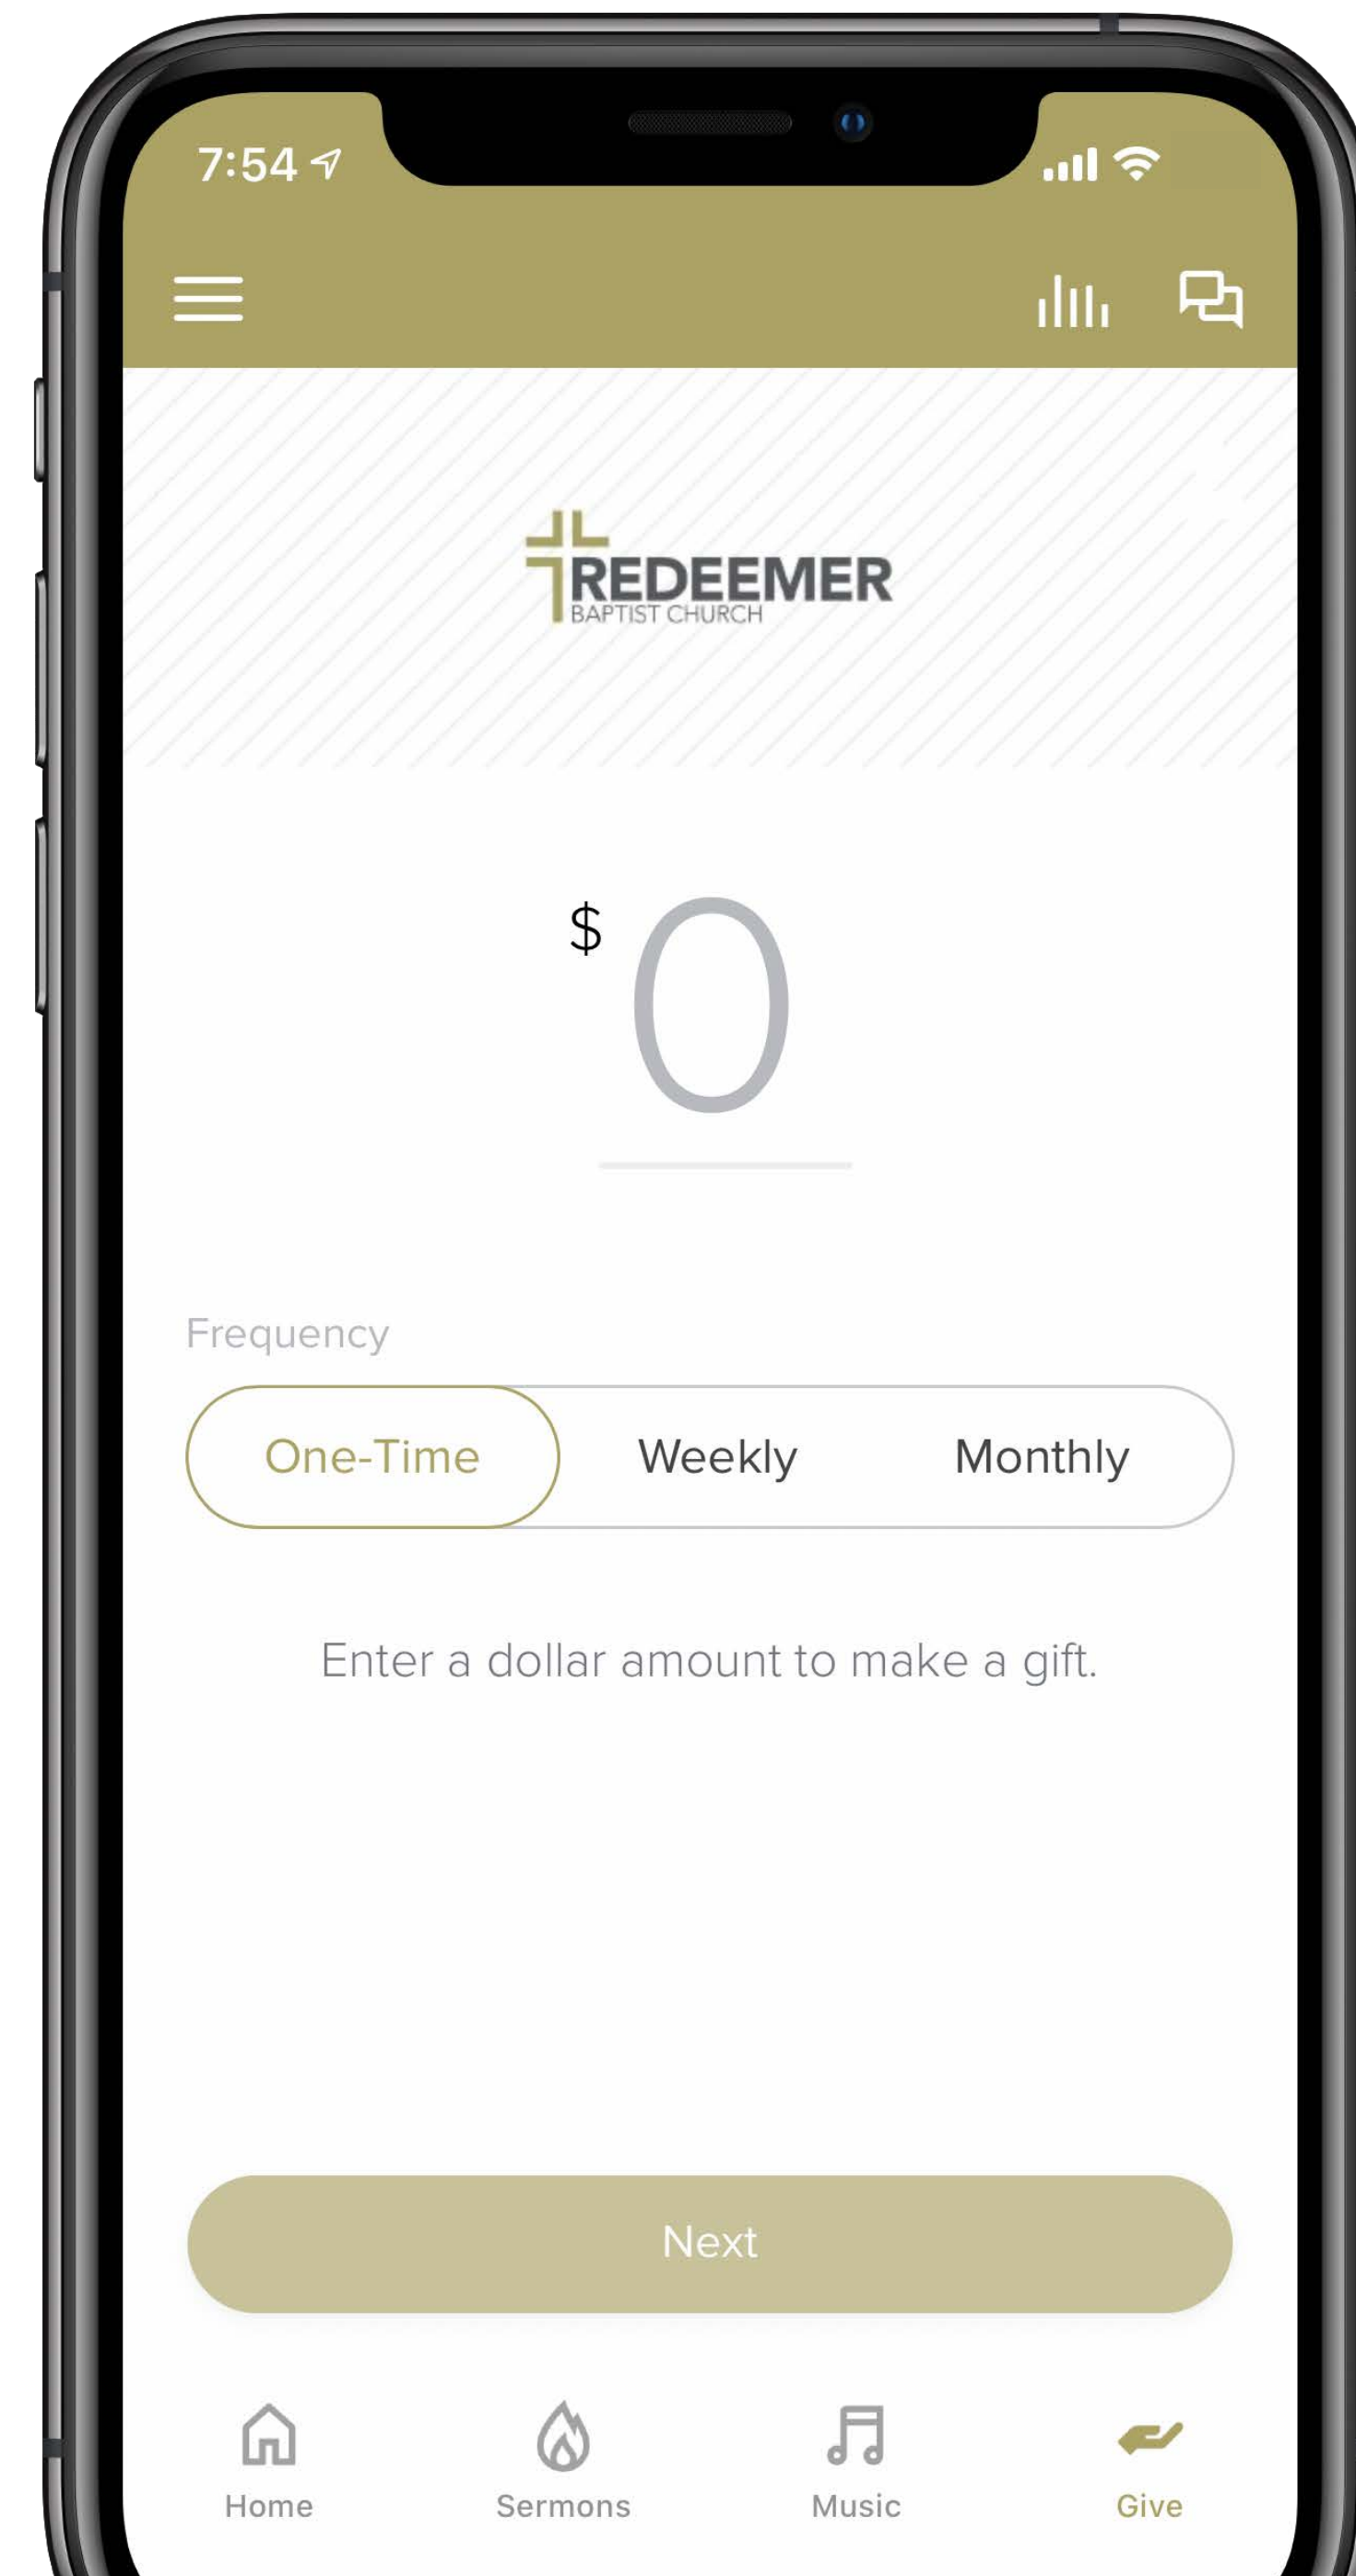

Your Community Group Calendar is always with you! Other Redeemer events will also be listed on the Events list.

# Online Giving

Use the Give tab to make one-time gifts or setup recurring donations.

This is a new giving platform and is separate from our previous giving system. Please consider signing up for an account and giving via ACH (bank account) to take advantage of the lowest fees.

If you have questions or issues, email [\*\*info@RedeemerOliveBranch.com\*\*](mailto:info@RedeemerOliveBranch.com)
